**WILL GIVE \$500 TO SICK READERS OF TIMES-STAR**

Famous Scientist Who Originated the Now Wonderful "Home Treatment" Offers \$1.00 Package Free to Sick and Ailing.

In order that every reader of the Times-Star who may not have heard of this wonderful "Home Treatment" may have an opportunity to test this celebrated medicine, the now famous scientist, Dr. James W. Kidd, offers to give absolutely free of charge a full size \$1.00 package to five hundred readers of this paper, to prove the wonderful claims which have been made for it. In making this offer the scientist said: "I know that there are many people who have been suffering for years with some chronic disease and many of them have spent large sums of money seeking a cure. I know that these people hesitate about investing money in medicine because they have depended of ever getting well. Thousands have told me that story and many thousands of the same people have told me afterwards that my treatment had cured them after doctors and everything else had failed. I want to prove to a limited number—no matter what the disease, no matter how long they may have suffered, no matter how bleak and gloomy—as that my treatment really and actually does accomplish the wonderful results that have been reported."

**FORM GARDEN CLUBS**

How J. Lockie Wilson and L. J. Bounger, of Minneapolis, Would Reduce Cost of Living

J. Lockie Wilson, superintendent of Horticultural Societies, in his annual report to the Convention of Horticulturists in Toronto, advocated the garden scheme as they work it in Minneapolis, as one of the best movements the association has made. 1,092 vacant lots were planted with flowers and vegetables, an increase of 302 lots in one year. There are 1,430 gardeners eighty-five per cent of whom never attempted this kind of work before, and 7,726 persons are interested in the movement. The area covered by vegetable and flower garden clubs is 160 acres, with a total garden frontage of over eleven miles. The value of the crop last year was \$90,000, and the cost comparatively small. Our own city of Toronto, said Mr. Wilson, has enough lots within her borders that are practically certain to be vacated for some time to come which, if utilized,

**Dry Massage of the Scalp a Benefit**

NEVER forget that the general health has much to do with the condition of the scalp and hair. Internal denervation and loss of strength will naturally react on the scalp, and, in such cases, therefore, to expect miracles from hair lotions and massage until you go to the root of the matter and improve your physical condition.

In order to bring about this state of affairs, it will be necessary for the hair to become familiar with the two following massage movements. Just before you arrange your glory locks in the morning, and immediately after unpinning them at night, place the tips of the fingers of both hands upon the nape of the neck where the hair grows so prettily, and work them, with a rotary motion, firmly up to the crown of the head. As

Give your lungs plenty of fresh air, you work so dully, see to it that you give your stomach plenty of cooked food, the muscles of your body a sufficiency of exercise, and, in conjunction with this, building up of the entire system, manipulate the scalp, as this will impart to it new life and vigor and restore the lustre of the hair as nothing else will do.

Scalp massage does not prove a great lax on one's time or patience. One need have only two ends in view: that of keeping the scalp perfectly loose and flexible upon its framework, the skull; and that of promoting the flow of blood to the roots, so that the hair follicles will be properly nourished and the glands secrete their oil to prevent the hair from growing harsh and brittle.

**THE CLUB MOVEMENT**

The club movement—in its early days a literary movement—is fast becoming a great civic force. A quiet woman joins a club, a very feminine act. Then some one suggests founding a library, a juvenile club, or a city park, or some other "motherly" act, and the quiet woman is put on a committee to present the request to the city authorities. Then she finds that the taxes she helps to pay are expended to suit party control. She begins to think of the streets her children have to pass through on their way to school, and realizes that she can do nothing about either streets or schools. She brings these problems to the club, and then perhaps the club makes the discovery that the towns and cities collect fees from even the very saloons that cause them to spend three times the amount of the fees to care for the deserted wives, helpless children, jail and penitentiary inmates manufactured by the same saloons, and that school funds are not used to the best advantage to the community. So the mother finds her interest in civic questions, and comes to realize that the home of today is different from that of her youth, and to realize the splendid regenerating influence of the club and the Federation. You cannot plunge the average woman into civic work at one fell stroke. She must have club contact for the give and take of life, and she must become accustomed to "team play" and learn to work in step.

To the titles of Mother, Wife, Daughter and Sister, add one which means—"Citizenship." To be a clubwoman, for sooth, may it come to be a title so proud that it shall outrank royalty or pride of birth!—Sarah S. Platt Decker.

**"PORTIA" DECIDES AGAINST HERSELF IN DIVORCE SUIT**

St. Louis, Nov. 22—Mrs. Annabel Arnold, an attorney, who educated her husband as a physician, decided a law point against herself in Judge Grimm's court in her suit for divorce from Dr. Walter E. Arnold.

Her attorney, Eustace C. Wheeler, attempted to introduce in evidence a letter written to her by her husband. Turning to the plaintiff Judge Grimm said:

"Now, Mrs. Arnold, I want to ask you as an expert on law, do you think this letter is competent evidence?"

Without hesitation she replied:

"The letter would properly be considered a privileged communication between husband and wife."

"That is the court's view," said Judge Grimm.
