Los Angeles, Feb. 23.—Was Mrs. Catherine Uribe spouting the authorities when she told them she had Clara Phillips, the escaped "hammer murderer," captive in an underworld retreat in Tia Juana, Mexico?

Police now believe her story was simply a daring scheme to release a pal, since there is good reason to believe that Mrs. Phillips is still hiding in the interior of Mexico, probably in the wilds of Chihuahua.

Mrs. Uribe's story was the first actual trace of the fleeing "Tiger Woman" found by authorities after her escape from jail. Detectives were sent to Tia Juana to bring Mrs. Uribe to Los Angeles to give the police what information she had.

Then it was said that Mrs. Uribe was holding Clara Phillips for exchange, upon condition of the release of "Little Phil" Alguin, held in Los Angeles. Police were not deterred by the tale, and a search was made for a prisoner as the "Tiger Woman."

While the case lagged, information came to the police that Mrs. Phillips had not been captured by Mrs. Uribe at all, and that the chances are she is still at large.

## DISCOVERY OF ANCIENT TOMB SETS FASHIONS

Mrs. Asquith Wears a Brilliant "Tut-an-kh-amen" Gown at London Wedding

London, Feb. 23.—When the Earl of Carnarvon discovered the tomb of Pharaoh Tut-an-kh-amen at Luxor, he set the fashion for the new season's fashions. Dress designers both in Paris and London are turning their attention to Egypt and the fashions which delighted the Court of the Pharaohs 3,000 years ago. Carnarvon took and straight out Pharaoh fringes are to be the vogue.

Already some "tomb" gowns have made their appearance in London. At the wedding of the Honorable Joan Poynders and Sir Edward Grigg, Herbert H. ("Margot") Asquith caused some sensation by appearing in a "Tut-an-kh-amen" dress—the first to be seen here. The dress was made of closely-woven terra-cotta cloth, caught at the waist with a large scarab scarab, the whole effect being that of a mummy's wrappings. Whether the mummy frocks will be generally worn remains to be seen.

## INVESTIGATING FIRE WHICH DESTROYED MONTREAL CHURCH

Montreal, Feb. 23.—A broken pipe that led from one of the furnaces in the basement at the chimney of St. Saviour's Roman Catholic Church, formerly Trinity Anglican Church, was the only definite theory advanced yesterday at an enquiry into the causes of the outbreak that destroyed the edifice in the early morning of February 14.

Father Nasra, parish priest, said the church was a total loss. He believed the full value of the property was about \$150,000 on which \$30,000 insurance was carried but \$7,000 of this was held by the former owners, on the organ.

## I.O.D.E. PLEASED WITH ACTION OF THE GOVERNMENT

Gratification at the action taken by the Government in introducing free kindergartens into the public schools of the province was expressed on Tuesday at the regular meeting of the I. O. D. E. held in Fredericton with Mrs. W. J. Scott, first vice-president, in the chair. Members present from St. John were Mrs. H. A. McKeown, Mrs. Courtland Robinson and Mrs. Heber Vroom. Letters were received from Richibucto and Hartland asking that pictures in the schools at those places.

Arrangements were made to hold the provincial annual meeting in Fredericton in April. This year the session will occupy two days.

Mrs. McKeown and the provincial educational secretary, Mrs. Robinson, waited upon Dr. W. S. Carter, chief superintendent of education, to give further particulars regarding the work of the free kindergartens in the province. A committee of four from the provincial executive had been appointed at the December meeting to try to get the necessary legislation for the introduction of the free kindergartens into the public schools of the province.

The matter is entirely optional for each community. The proposed amendment as drawn up was endorsed by the primary chapters. It is a matter for gratification to the order that the proposed legislation, even for such a prize as the "Tiger Woman," was approved by the government. I. O. D. E. members feel that it is a step forward in the promotion of both educational and child welfare work which are two of the principal objects of the order.

Bars High Caste Native of India from Naturalization as an American Citizen.

Washington, Feb. 23.—A high caste Hindu is not a "free white person," within the meaning of the naturalization law, by the United States District Court for Oregon. He had entered the United States prior to the passage of the Exclusion Act of 1917, and the court ruled that the words "white person" must be taken in the meaning they have in common usage, and are not to be applied through a scientific study determining whether the persons affected descended from white stock.

## RADIO SERMON ARE REAL COMPETITION, SAYS PASTOR

Only Fittest Preachers Will Survive, Others May Go to Wall, He Insists.

Pittsburgh, Feb. 22.—Radio offers a wholesale challenge to the churches of the world because "we may, perhaps, be compelled to make good or go out of business," the Rev. R. J. Van Eizen told his congregation at Calvary Protestant Episcopal Church here. Dr. Van Eizen is known as the pioneer radio preacher of Pittsburgh.

Some of the dangers of the situation, he said, are that "broadcasting church services will prove something of a disintegrating force of the church organization themselves. Only the fittest preachers will survive and struggling churches will, more or less go to the wall."

## POLICEWOMEN TO SWING CLUBS IN LONDON STREETS

London, Feb. 18.—At last London is to have women constables who are to have the same status and powers as the ordinary policeman.

Hitherto the London police organization has employed a number of women in uniform, but has always refused to look on them as police-women. They were known as women patrols, and they had no power of arrest.

The official statement issued from the Home Office says that "the women patrols are being sworn in as constables. They will thus have exactly the same standing as male members of the force. It will be understood, however, that they are not expected to undertake any duty which they may be physically unfitted to carry out."

Before the government began to economize before war, there were a hundred uniformed women, but the Geddes are lopped off eighty of these, so that the number of women police at present is only twenty for the whole of London.
