

A HAPPY CHILD IN
JUST A FEW HOURSIf Cross, Feverish, Constipated,
Give "California Syrup of Figs"

Mother can rest easy after giving "California Syrup of Figs," because in a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they become tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it cannot cause injury. No difference what all your little one—full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember, a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle. Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

Want Embargo Off Irish Potatoes
Dublin, Nov. 15.—The secretary of the Irish department of agriculture, T. P. Gill, left yesterday for the United States. He will endeavor to induce the American government to remove the embargo on Irish potatoes.

That's
the way
to do it.How Mrs. Edwards makes
the most delicious macaroni
you ever tasted.

MACARONI Cook the macaroni, which has been broken in small pieces, in boiling salted water for twenty minutes. Make a tomato sauce by adding to three packets of Edwards' macaroni, two cups of tomato sauce, and add boiling for twenty-five minutes. Add small pieces of butter, and taste with salt and pepper. Drain the cooked macaroni, and add the tomato sauce. Serve while hot.

Three varieties of Edwards' Soups—
Brown,
Tomato and
White.

Your Grocer has them.

daily newspaper
Bill Wise

Manufacturers who are interested in daily newspaper advertising for nationally distributed products can obtain the co-operation of The Telegraph and Times in arousing the interest of local dealers in gathering data covering trade conditions in this city. Communications should be addressed to The Advertising Manager.

AT ODDS AGAIN

This is the Crown Prince of Germany at a recent military event. It is said that the future emperor is at loggerheads with the Kaiser again. The picture is from a new photograph.

HEARD MURDER OVER PHONE

Mystery That is Baffling Paris Police—
Cannot Locate Scene of Tragedy

Paris, Nov. 15.—For two weeks the Paris police have been searching for the scene of a supposed murder, but their search has been in vain. A woman in charge of an apartment house in Passy, answering the ring of a telephone bell a fortnight ago, heard screams for help and the cry that murder was being committed. A policeman was called and he flattened to the end of the supposed tragedy. The cries became fainter and fainter, and there seemed to come the sound of a falling body.

In the meantime, repeated questions: "Who are you?" and "Where are you?" remained unanswered. Suddenly the connection was cut, and all efforts at the telephone exchange to trace the call failed.

Brotherhood of St. Andrew
Saskatoon, Sask., Nov. 15.—The Brotherhood of St. Andrew opened a three day conference here today. There are about 100 delegates from all parts of the west.

DR. J. W. CHASE'S CATARRH POWDER 25c.
Is sent direct to the diseased part by the improved Evers' Blow. Clears the air passages, stops discharge in five minutes. Permanently cures Catarrh and Hay Fever. No substitutes. All dealers or write to J. W. Chase, 1111 Broadway, New York.

THREE LINERS
AT BOSTON AFTER
TERRIFIC TRIPS

Boston, Nov. 15.—Three belated trans-Atlantic liners, the Cambrian, from London; the Hanover from Bremenhaven, and the Parisian from Glasgow, arrived today, each carrying reports of terrific gales and mountainous seas.

THINK GRAND TRUNK
ROAD WILL COMPLETE
NEW ENGLAND BRANCH

Providence, R. I., Nov. 15.—A promise made today by Vice-President John S. Munsell, of the Southern New England Railway Company, to complete a bridge at Elmwood avenue, was regarded by Mayor Jos. H. Gainer as an indication that the road will eventually be completed. The bridge was left half finished more than a year ago when work was suspended on the proposed Grand Trunk branch line.

Mayor Gainer issued a statement in which he said:

"I am satisfied that the public will regard the determination of the Southern New England as evidence of good faith."

YOUTH IN OLD AGE

Possible With Proper Care

A few generations back a man at 60 was considered old, gray-haired, and waiting for death. Note the change today. At a meeting of the Medico-Legal Society it was stated that a man of 80 ought to have forty good years of him and, thus, ninety, he is in the fullness of maturity.

What if you have been sixty, or seventy, or eighty, or ninety, or a hundred, fresh air and exercise, with a simple diet and a sufficient amount of sleep, will guard your health.

If perchance, your circulation is poor, if you become run down—weak and listless—nothing the world will tone up those tired back-sliding organs—enrich the blood and create strength and vigor.

I ask every feeble, discouraged old person in this vicinity to try Vinol on my agreement to return their money if it fails to give satisfaction. Chas. R. Watson, druggist, St. John.

YOUNG APPLE TREES

Winter Protection—The Matter of Injury from Vermin.

Precaution must be taken to prevent injury from mice, rabbits, etc. Many failures in apple growing here and elsewhere are caused by these pests and a large annual toll in the form of dead trees is annually exacted by them. As far as possible crops should be avoided, and the accumulation of litter, trash, weeds, long grass, etc., which furnish suitable winter quarters for these animals, prevented. Mice work under the snow and damage from them may be prevented by trapping the snow solid round the tree after the first few snowfalls. This method of protecting is however somewhat dependent on the weather. The cheapest and safest protection is secured by wrapping the trunks of young trees with paper, wood veneer or some such material. Good strong building paper, as light as possible in color gives good satisfaction.

This may be placed round the trees in the fall, not tightly, but leaving an inch or so of space between the inside of the paper and the bark of the tree. A soil should then be mounded up around the bottom of the paper to a height of six inches or so. Veneer tree protectors, made of cloth material one-eighth inch thick, twelve inches high, twelve inches wide, and costing about half cent each, will last two or three years and afford good protection. The paper or veneer, as the case may be, should be applied in the spring, about the middle of April.

This form of damage is very common in some localities, so common, in fact, that a tree which escapes it is a rarity. The greater part of the damage occurs in late winter, or during the warm spring days when the snow is going off. During the warm afternoons the sun, reflected from the snow against the southwest side of the tree trunks, becomes very warm. The trunks are thoroughly warmed on that side. They are thawed out, and the bark becomes soft, sappy and pliable. Then, when the sun goes down and the temperature falls again to zero, the bark is again frozen tight. The next day the same thing happens, and so day after day the young bark freezes and thaws, and by this means is torn to shreds. When spring arrives the bark is killed and broken open. Then various kind of fungi get in and the damage which begins by freezing and thawing ends with spread of canker and other troubles all around the trunk of the tree.

The best preventives of sun scald are low heads and veneer and paper cylinder protectors. High-headed trees, which are of doubtful value anywhere, are altogether undesirable in places where sun scald is bad. The protectors of paper or wood veneer recommended above for mice and rabbits will also give practical immunity from sun scald. This trouble is a very serious one. It is not uncommon to find entire young orchards ruined by it. In sections where this trouble is prevalent great pains should be taken to protect young orchards from it. For the benefit of the fruit growers, the Fruit Growers' Association has secured about 8,000 veneers and will fill orders for them at cost price. Apply to: The Secretary, N. B. Fruit Growers' Association, Fredericton.

Schooner Thought Lost, Safe.

Quebec, Nov. 15.—The schooner Daisy, from the Labrador coast, with thirty-six passengers for this port, supposed to be lost with all on board, is safely anchored in Tadoussac harbor.

Look!

If you were told of a new discovery for the treatment of coughs, colds and bronchitis, as certain in its action on all chest troubles as anti-toxin is on diphtheria, or vaccination on small-pox, wouldn't you feel like giving it a trial? Especially if you could try it for fifty cents!

Peps is the discovery!

Peps is a little tablet, neatly wrapped in air and gum-proof silver foil. They contain secret, medicinal ingredients, which, when placed upon the tongue, immediately turn into vapour, and are at once breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief to the capillaries and tiny air sacs in the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps frames get there direct, and at once commence their work of healing.

Peps are entirely distinct from the old-fashioned liquid cough cures, which are merely swallowed into the stomach, and then slowly make their way to the lungs.

If you have not yet tried Peps, cut out this article, write across it the name and date of this paper, and mail it (with 10c stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps at 50c. box.

WHAT'S THE MATTER? TRY PEP'S

NEW YORK Y.M.C.A. CAMPAIGNERS FIND SIGNS OF STRINGENCY

Contributions on Fourth Day Less Than \$100,000 Towards \$4,000,000 Fund.

New York, Nov. 15.—The volunteer committee of 1,000 engaged in a two weeks' campaign for \$4,000,000 for the Young Men's and Young Women's Christian Association, announced contributions amounting to \$64,747. The total campaign is for the first four days.

The largest single contributor today was W. L. Dodge, with \$25,000. There were several contributions of four and five thousand dollars each.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-Time Recipe That Anybody Can Apply.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 6-cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so fast and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant. Agent—Watson's 5 stores.

May Dissolve Royal Marriage.

Stockholm, Nov. 15.—Negotiations are proceeding between the courts of St. Petersburg and Stockholm, according to the Stockholm newspapers, for the dissolution of the marriage of Prince William of Sweden and the princess who was the Grand Duchess Marie Pavlovna, daughter of the Grand Duke Alexandrovich.

Many Troubles Now Disturbing Canada Would Not Have Arisen if Borden Had Not Won

(St. Andrew's Beacon)

A good many of the troubles that are now disturbing Canada would never have been known, but for the change of parties that was made in the last election. Nationalism in Quebec would have died a natural death, and the English-speaking minority in that province no naval problem to quarrel about, because it would have been settled along the lines determined upon by both parties in 1906. There would not have been the waste of public moneys for dell sheds and for militia display that has marked the last two years.

The people of St. John and the people of Halifax would have had their ports developed, and there would have been no discriminatory rates over the I. C. R. to complain about. There would have been no such increase in general freight rates over the I. C. R. as has taken place lately, and the people of Canada would still have control of that road.

The farmers of Canada would have had free access to the United States markets with their potatoes and their turnips; there would have been no competing duty and no competition from the cheap labor countries of the old world. So with our fishermen. There would have been no disturbance in business to create the depression which is now being experienced in many parts of this country.

The government of Canada would have been in the hands of the people of Canada, and not under the control of the "interests" to use it for the advancement of their own selfish ends. These are facts which should sink deep into the hearts and minds of Canadians.

Hanlon Backs Federals

Baltimore, Md., Nov. 15.—Edward Hanlon, former manager of the Baltimore National League club, and of the Brooklyn National League club, was today elected a director of the Baltimore Federal League club. Hanlon said he believed there was room for a third major league.

Sickness is usually caused by the accumulation of waste matter and impurities within the body.

Dr. Morse's Indian Root Pills.

enable the bowels, the kidneys, the lungs and the pores of the skin to throw off these impurities. Thus they prevent or cure disease.
