

taking has so evidently been with tokens of the Lord's favor.

The cause of Temperance still flourishes in this District, and the church had adopted the resolution of observing total abstinence from ardent spirits in every respect, except when prescribed as a medicine. A Foreign Missionary and Female Mite Society have been established among them, and the latter has collected fifty five dollars in aid of the Burman Mission.

RAWDON.--This little branch of Zion appears in a lively and healthy state--altho they have been compelled to exercise needful severity with some who neglected to walk according to the Gospel. Their trials have been many, and they have been called to oppose errors in doctrine, and evil in practice.--They desire to express much gratitude to the Lord for the faithful labours of Br. McLearn. Br. John Doyle has been ordained from this Church.

ANNAPOLIS.--This church rejoices that they have been permitted to share in the invaluable blessings foretold, and promised to the church of God in those latter days. After a long season of trial, the Lord has been pleased to revive his work, and to bless the faithful labors of his servant and the prayers of his people; the attention of many have been called up to the concerns of religion, and the power of converting grace has been witnessed among the people. *Thirty-eight* have received the rite of baptism and joined the church. The brethren have requested the Association to be held with this church the ensuing year.

WILMOT.--Their letter states that the interests of religion are on the advance, and some have been brought to rejoice in its glorious influences. The cause of Temperance is prevailing, and drunkards and tipplers have been rescued from the jaws of ruin, and the wife and mother made to sing for joy. The missionary flame has been kindled up in the church, and we most cordially join in their ardent prayer, that it may never be extinguished; their means and advantages are limited, but they have cheerfully contributed their mite for the Burman and Home Missions.

PARRSBOROUGH.--This little Church altho' still without a Pastor, is enabled to keep up regular meetings for prayer and exhortation, in the assured belief that the Lord will accompany with a blessing the meeting together of his people, however few--they much need the assistance of the Brethren on their Missionary tours.

HAMMOND PLAINS.--There has been a considerable increase of members in this church, and several have been dismissed to assist in forming the Church on Windsor Road.--They
