Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The serotulous tunt is vertically educated by mercurial disease, low living, discreted or unhealthy food, unputs air, althur and fiship habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the

will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corruptur ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrotilous constitutions net only suffer from scrotilous consplaints, but they have far loss power to withscand the attacks of other diseases; chancements, but they have far loss power to withscand the attacks of other diseases; chancements, vast numbers perish by disord my which, although not scrotilous in their nature, are still rend and fatal by this taint in the system. Most of this consumption which decimales the luman family has its origin directly in this scrotilous gontamination; and many destructive diseases of the liver, kidnoys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrotilous; their persons are invaded by this lunking infection, and their health is undermined by it. To cleanse if from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-juned from the most active remedials that have the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the core of not only scrofula, but also these other affections which arise from it, such as Emerityand Skin Dispasses, St. Antiony's Firm, Rosg, or Environmental Bolles, Tunous, Textures, Blotoches, Blains and Bolls, Tunous, Texture and Sait Remeaves and Bolls, Tunous, Texture and Sait Remeaves and Bolls, Tunous, Texture and Sait Remeaves and Mericental Dispasses, Dropper, Dispersia, Debilatry, and, indeed, all Complaints also founded in fruth, for scriptula is a degeneration of the blood. The particular purpose and virtue of this Saisana-rilla is to purify and regenerate this vital fluid, without which sound health is impossible incontaminated constitutions.

Aver's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIG,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so composed that disease within the range of their action can rarely withstand or crude them. Their penetrating properties search, and cleaning, and invigorate every portion of the human organism, correcting its diseased action, and restoring its incatthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they care the every-day complaints of every hody, but also many fermidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiceness, Heartburn, Headache arrising from disordered Stomach, Aussen, Indigection, Panin and Morbid Inaction of the Boxe's, Flatticucy, Loss of Appetite, Januachee, and other kindred complaints, stising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral.

Coughs, Colds, Influenza, Hoarseness, Patients in advanced stages of the

Patients in advanced stages of the disease. So wise is the field of its usefulness and so numerous are the cases of its cures, that almost every section of contry abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public his longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the commanity have failed and been discarded, this has gained friends by every trial, conferred benefits on the affected they can never forget, and produced cures too numerous and too remarkable to be forgotten.
