#### REVELSTOKE'S NEW WATERWORKS SCHEME

#### By-Law to Provide Over \$20,000 -C. P. R. Will Be Asked to Co-Operate

stated that he had submitted the proposition of co-operation in the new water scheme to the C. P. R. at Vancouver, but had no reply.

scheme of taking water from Revelstoke and Greely creeks by R. Smith, Sc P. L. S., was in part as follows:

will be sufficient for 13,000 inhabitants bicyclist who happened along at the in the city and when added to the moment, had a narrow escape from bepresent supply will give ample water ing injured by pieces of timber. for 14,000 people and also for flushing BIG LAND DEAL sewers and watering lawns. If the city attains more than this population the supply can be augmented to meet the requirements of a population of 40,000 by extending the mains to Greely creek. This extension will be two miles, roximately, which would be a very small expenditure for a city of 14,000 and upward. In view of the consider ations aforementioned it is advisable in order to provide for the ultimate re quirements of the city, that a main should be laid from the present water struct a main from the present day 20,000 feet in length up to the valley of the Illecillewaet river 12 inches in diameter, thence turn to the left 4,300 once. supply for the immediate future. This branch line would be ten inches in diameter and will carry all the water in the creek which will provide water for 14,000 population. When this supply proves inadequate, the extension can be made from the end of the 12-linch main to Greely creek at a cost of some of the present settlers having can be made from the end of the fine main to Greely creek at a cost of approximately \$12,000, thus obtaining been there for 18 years. a supply sufficient for 40,000 people. The cost of the proposed changes will be up the valley for ten miles, and a con-\$19,176; 4,300 feet of 10-inch pipe, \$3,354; this summer.
cost of dam, \$1,000; cost of roads, \$1,000; "At the mouth of the valley is lo

structed to prepare the by-law to place and cost \$5,000." before the people to raise the money.

The city clerk was also instructed to take steps to obtain a Dominion government grant for pipe line right-of-having sold several blocks aggregating way and to get a reserve put on the over 4,000 acres, not long ago, for head waters on the creek, and prevent about \$70,000. any homesteads being taken up there

#### REVELSTOKE ASSESSMENT.

Revelstoke, June 15 .- City Assessor C. M. Field has submitted the assessment roll for the year 1910 to the city council. The roll showed a total land as- Dr. Fagan Arouses Much Interest ent of \$952,255 and improvements \$1,988,466. From the land asse must be deducted the sum of \$38,810 for exemptions and from the improve ments, \$68,800, leaving a real assess ment value for land of \$913,445, and fer improvements \$1,020,466. Taking the assessment is \$266,158, and for improvements \$111.220.

## SPRING SALMON RUN

#### Fraser River Fishermen Complaining That Island Traps Are Affecting Supply There

The spring salmon fishing is not as good this year as in former seasons. The traps have been making some pretty good hauls, but not anything like up to the average. The most fish have been caught by the Findlay, Durham & Brodie traps, especially in the one near Otter Point. This is always the best location for catching apring salmon, but it is not as good for

river that the catch is very small, and the ishermen are blaming the Vancouver Island traps. This is all nonsense, as the most of the fish are caught on the Ameri- Dr. Fagan refe ating here this year, J. H. Todd & Son and Findlay, Durham & Brodie.

A New Westminster dispatch reads: The spring salmon run, according to fishermen on the Fraser, is practically a failure. This is the season of the year when the fishing should be at its best, but the boats are now bringing in only three or four fish each. At this time last year they were bringing 300 to 400 pounds daily. Fisher-men are at a loss to account for the scarcity of fish, as in the Columbia river good catches are being made. It is alleged by some that the presence of traps off Vancouver Island affect the supply; and it is mentioned that this is the first time in the history of the industry that fresh fish have been sent from Victoria to Eastern points. Spring salmon are re-tailing at fifteen cents per pound; last

year the price was ten cents. Two firms are engaged locally in mildcuring spring salmon, Findlay, Durham & Brodie and the San Juan Fishing Co.

#### EASY TO PREVENT

BUT HARD TO CURE

### in Tuberculosis Fight in Montreal

A spirited address delivered by Dr C. J. Fagan of Victoria, B. C. Duties of Society to the Consumptive, took up an entire afternoon session of the Canadian Association for the Prevention of Tuberculosis in Montreal. Dr. Fagan emphasized the greater ed of public interest in the question SMALLER THAN USUAL and said that were men in the service of the state more alive to the dangers of tuberculosis they might save many ives. The old theory that tuberculosis was hereditary was exploded long ago, and it was now certain that the cause of the plague was a germ, which gained entrance into the lungs in two ways, by breathing and by swallow-

He said that the spitting habit was one of the greatest which they had to contend with, and with proper training of the children, this evil could be removed. He could affirm that tuber ulosis was preventable if they would only take proper steps to remove it.
In the United States in four years uberculosis had carried off as many the Civil War, while in Canada it

# TERMINUS OF

MAY BUILD TO STEWART

#### Surveyors Working in All Country From Portland Canal to Fort George

(From Thursday's Daily.) That Stewart may become the ter was the news brought this morning from the north by the steamer Vadso. According to the information received from the new mining camp Canadian Northern surveyors have gone into the interior and are surveying all the country right through to Edmonton with the object of locating a route for a new railway which will make Stewart its western terminus.

According to the informants, the Canadian Northern have for some time been easting jealous eyes at the Grand Trunk railway, with the result that they have decided if possible to build Zens' Committee — Estimates through that country. In the interior there is supposed to be a splendid country which will be useful for agricultural purposes. It will slant away to Yellow Head Pass, connecting wit their main line at Fort George.

The fact that D. D. Mann has invested very heavily in Stewart and is at the present time building a short line of railway back to the mines at that place lends color to the statement All depends upon the report of the surveyors as to the feasibility or otherwise of building through the mountains, and also upon the character of the country behind them.

Arrivals on the Vadso further report that there are an immense number of prospectors' boats operating on Portland Canal. There is no abating of the interest taken in the camp, and the whole country is flooded with prospec-

#### WILL ASK COMPANY TO PAY THE COST

Question of Nanaimo Fire Brigade Working Outside City Limits Discussed by Council

Nanaime, June 15 .- At the weekly meeting of the city council Ald. Leicester brought up the question of the fire brigade attending fires outside the city limits. He did not feel like refusing aid to neighbors in distress, but neither did he think the brigade should render assistance without remuneration. A conservative estimate of deterioration every time the brigade turned out was from \$20 to \$40. The services rendered by the department last month at a fire on the townsite undoubtedly saved the insurance company interested hundreds of dollars. He would move an account be sent the company asking it to pay the costs of the brigade incurred in ex-

tinguishing the flames.

Ald. Young, in seconding the motion remarked it was nothing but right that the insurance company benefited should

foot the expenses.

Ald. Forrester thought better results could be obtained through the committee meeting the government agent and find out if an agreement could not be made whereby the provincial govern-ment would consent to reimburse the Ald McRae remarked he had had Francisco Tuesday, July 26th. matters of this kind. They would not exchange, James J. Searle being the consent to any such arrangement and auctioneer. would inform the council the department had no business going outside the

city limits. Mayor Planta remarked it might be a good chance to get the outside prop- was thoroughly overhauled in fire protection.

Ald. Leicester's motion carried.

Ald. Watson moved, seconded by Ald. Shakespeare, that Ald. Young be granted permission to introduce a by-law amending the waterworks regulation by-law.

A majority of the aldermen favored Mackall & Co. She will take part cargo postponing action and the matter was

defeated. NANAIMO LICENSE BOARD.

Nanaimo, June 15 .- A meeting of the claimed one life in every three of those board of license commissioners was held last night. Applications for re-newal of licenses were received from all the hotels in the city and granted ing done in British Columbia, and said with the exception of the Grand hotel, that the results which attended their which was granted a temporary permit that the results which attended their labors well justified them. NELSON TEACHERS.

Nelson, June 15.—The prospects are that the teaching staff of the Nelson schools will be greatly changed in complexion the coming term. Four members of the present staff have so far resigned and other resignations are in prospect. A variety of reasons account for the situation.

At a special meeting of the school board the resignations were received and accepted, of C. McL. Fraser, principal of the High school; H. T. Jost eacher of department IV. in the public school, and Miss A. H. Ross, teacher of department VI. of the public school. The resignation of T. H. R. Roberts as principal of the public school was accepted earlier. At the same meeting Miss Jessie

Mackenzie of Greenwood, and Miss J. V. McDougail of Grenfell, Sask., were appointed to the teaching staff. At an earlier meeting N. May, principal of the Grand Forks school was appointed to succeed Principal Roberts. Principal Fraser will devote the en

suing year to scholastic work, completing the work required for the degree of Ph. D.

#### ELECTRIC LIGHT FOR PRINCE RUPERT

# of Operation Submitted

Prince Rupert, June 15.-The city has taken over electric lighting plant responsibilities from the citizens' com-

At a recent council meeting the citizens' committee was present, also Mr. Milne, the engineer.

Thos. Dunn said that contracts for the the mill, still they are good for this machinery were about to be let but had season of the year. not been signed up yet. Mr. Milne had come up from Vancouver to explain any of the clauses to the city solicitors, before signing up. The time was now ripe for the city to take over the whole

Mr. Milne reported that it would take from two and one-half to three months been gradually increasing their cut to in which to make the machinery for the meet the demands. The capacity at plant. No work would be done until present is about 1,750,000 feet of lumthe contracts were signed up. Included in the machinery were boilers, switch board, pump, draft, condenser, alternaters, engine, and arc light operators. He was of the opinion that there ould have to be an overhead bridge, because of the nature of the ground at. the proposed site. The council must settle the position and type of power house. In the summer an engineer would be necessary, and in the winter two engineers. He had drawn up a report showing what the cost of operation would be in wages, coal, oil, main tenance, depreciation, insurance, interest and sinking fund. The charge for lighting would be based on the cost of operation. With sixty lights to start with, he believed the cost per light would be \$99. Sea water could be used

Ald, Pattule moved and Ald, Barrow seconded, that the committee on lights take the responsibilities over from the citizens' committee. This carried.

SAWMILLS ON THE

Large Shipments Made to Prairie Provinces-Local Demand is Also Increasing

New Westminster, June 15.-All lines of business are active in New Westminster. Particularly is this true of

Most of the mills are working day ial in favor of and night and even then are hard tives by New Brunswick's put to it to keep pace with the order ook. One reason for this activity is John Costigan, and I knew the great demand for lumber from the prairie provinces. The local trade also was honest and true and is demanding more attention than given only to help his fellow-formerly. Building is also brisk in the

The Fraser River Mills shipped during the month of May by rail 5,000,000 feet of lumber to the prairies. Their shipments by boat amounted to 2,000,-000 feet. Besides these amounts they sent by scows about 1,000,000 feet to Vancouver and surrounding district. The month was a noteworthy one for the company by reason of the fact that during it they sent their first hipment of lumber to South Africa. This avenue of trade is expected to be materially developed. The usual large consignments were sent to Australia, and a fair average to Mexico. Work will soon be commenced on additions to the plant at the big mill that will permit of a very much increased cut. The mill worked overtime during the month. While shipments do not constitute a record for

month was 7,200,000 feet. The Walsh sash and door factory has never been so busy. The Small & Bucklin Lumber Company, employing about 200 men at the mill and in the camps, have the same story of activity to report and have

meet the demands. The capacity at

ber per month. The Royal City Planing Mills, like the other firms, are making large shipments to the prairies. R. J. Rickman, the manager, reports that prospects appear very bright for a very busy summer and fall. He states that the local demand has increased to a very noticeable degree this summer. The Brunette and other mills in the city report business good and a big demand for lumber,
