THE BUSINESS MEN ENDORSE BY-LAW

A public meeting in the interests of the hotel by-law is to be held in the to Victoria a class of travel that now Victoria theatre on Wednesday evening passes by. In still another light, the building of a C. P. R. hotel here I regard as a very significant move. A shipping man from the South was in our store a few days ago and told me that he looked upon this port as having a bright future. With the building of the Grand Trunk road and the opening up of the Orient, he said, Victoria could not be other than the headquarters of a large amount of shipping, because of its central location. And no effect that General Kuropatkin has one can see this better than big railway companies. By all means let us have a policy to be adopted with regard to

Walter Walker was not sure which way he would vote on the by-law. He had not given the hotel project a great deal of thought yet. He would have no hesitancy in supporting the by-law if vested rights did not suffer, but there were hotels here which had to pay as high as \$80 a month for water alone. They had other municipal expenses equitable or just to exempt the C. P. R. for an extended period from all these charges. Otherwise he believed the ject a good one.
