The Chinese in the Pei Ho Valley are paying dearly for the folly of their government. The retribution they are suffering exceeds the ordinary penalties of war. European Powers Must Act Together or Get Out--Now is the Time to Establish the Status of Foreigners -- Present Movement Deliberately Planned.

Shanghai, Sept. 2.—Mr. William Wood-ville Rockhill, special commissioner of the United States government to investigate and report on conditions in China in an interview with a representative of the Associated Press, emphasizing the importance of the haronnious action of the powers as a measure of self defence, said: "If the Chinese government is able to break the concert of nations and to bring about a disagreement on the part of any government in such a way as to secure any relaxation of the joint demands, all the foreigners in China may as well pack

up and leave.
"This is the very best opportunity to settle for all time the status of foreigners in China. If that matter is not settled now the Chinese will be encouraged to persist in their present policy and the powers will have the whole trouble to thresh over again every two or three years. I believe that all the governments are impressed with this truth and I believe most of them realize that definite and permanent settlement of the status of foreigners and the establishment of freedom of trade are more important to them now than the acquisition of territory. "This has been a deliberately planned "This has been a deliberately planned movement on the part of the Chinese government to expel all foreigners.
