Just compare cost and results with any other treatment and you will be convinced. Ask your druggist for a free booklet; it is interesting and costs you nothing (Templetons, 142 King St. W., Toronto). A Sure Corrective of Flatulency.—When the undigested food lies in the stomach it throws off gases, causing pains and oppression in the stomachic region. The belching or eructation of these gases is offensive, and the only way to prevent them is to restore the stomach to proper action. Parnele's Vegetable Pills will do this. Simple directions go with each packet and a course of them taken systematically is certain to effect a cure.

VILLAGE OF GLENCOE

BY-LAW NO. 258

To authorize raising the sum of \$18,000.00 for remodeling the existing municipal electric lighting system of the village of Glencoe and constructing an electrical distribution plant for operation under the Power Commission Act.

WHEREAS the corporation has applied to the Hydro-Electric Power Commission of Ontario under the provision of "The Power Commission Act" for a supply of electrical power or energy for the use of the corporation and the inhabitants thereof for lighting, heating and power purposes and for an estimate of the cost thereof.

AND WHEREAS the cost of remodeling the said existing electric lighting system and construction of an electrical distribution plant for the village of Glencoe has been estimated to be the sum of \$18,000.00, such estimate having been furnished by the commission.

AND WHEREAS it will be necessary to issue debentures for the amount of the debt intended to be created by this by-law, and it is desirable that such debentures shall be issued at one time and that the principal of the same shall be made payable in annual instalments during the period of twenty years, such instalments to be of such amounts that the aggregate amount payable in each year for principal and interest shall be as nearly as possible equal to amount payable in each of the other nineteen years of said period.

AND WHEREAS the total amount required to be raised annually by special rate for paying the said debt and interest as hereinafter provided is \$1,506.23.

AND WHEREAS the amount of the whole rateable property of the corporation, according to the last revised assessment roll, is \$382,802.00, and the amount of the existing debenture debt of the corporation, exclusive of local improvement debts secured by special rates or assessments, is \$11,342.19, and no part of either the principal or interest thereof is in arrears.

1. That it shall be lawful for the purposes of remodeling the existing municipal electric lighting plant and construction of an electrical distribution plant for the said village of Glencoe, pursuant to the estimate furnished

2. Said debentures shall bear interest at the rate of five and one-half per centum per annum, payable yearly, and in such amounts that the aggregate sum payable for principal and interest in any year, in respect of the debt, shall be equal as nearly as may be to what is payable for principal and interest in each of the other nineteen years of said period.

3. "A Joan of Arc Machine"

"SHE withstood everything in the field and above all was, and still is, the last and only car to survive until the cessation of hostilities."—Extract from letter received by Ford Motor Company from a British Soldier, in Africa.

Over shell-torn roads, through water soaked fields, second only to the tanks in its power to climb debris and crater holes, the Ford car made a world famous record in the fighting area of the great war. In press despatches, in field reports, in letters, in rhyme and song the praises of the Ford were sounded.

In France - 700 cars out of 1,000 were Fords

In Egypt - 996 cars out of 1,000 were Fords
In Mesopotamia 999 cars out of 1,000 were Fords

The Ford power plant that established this world-wide record in every theatre of the war remains the same. It will be in the Ford you buy.
