We pay the Freight

In playing position 31 inches high

Have pleasure and comfort in your Home this winter. This can be made possible with one of these well-known Talking Machines.

25⁰⁰ CAROLA or 48⁰⁰ PRIMOLA

CAROLA You must hear the sweet strains of this Carola to appreciate its richness. And remember if it does not satisfy you in every way, slip it back at our expense, and it will not cost you a penny. Possesses a richly finished, mahogany cabinet, 22½ in. high, 11 in. wide, 13 in. deep, large turntable. Nickel plated No. 1 sound box. Tone arm is made of violin fibre; this prevents a rasping metallic ring. Brake and speed regulator. Double spring, spiral drive motor (can be wound while playing). Cabinet made of steel. All metal parts nickel plated. Observe lift cover as found on machine sold elsewhere at 50 per cent. more. You will find the Carola all and more than we claim. Thousands have been sold throughout America. To let you prove the quality of the Carola we are willing to give 30 days' trial, and if not entirely satisfactory return and your money will be immediately refunded. Shipping weight, about 40 lbs. Entire cabinet made of steel.

No. 2112—Price delivered any town in Man., Sask. or Alta... **25.00**

Your Opportunity You don't have to be deprived of the pleasure of hearing the great singers just because they may not happen to visit your home town. With this excellent instrument you can hear your favorite singer render your favorite selections as often as you have a mind to. The Primola can be secured with a fumed oak or mahogany cabinet. Is 38¼ inches high, 16 inches wide, 17 inches deep, 12-inch turntable. Nickel-plated Primola sound box, tapering tone arm and "goose neck" sound-box tube, brake speed regulator and indicator. Extra heavy double spring, spiral drive motor (can be wound while playing). All metal parts nickel plated. Will play any make of record. The motion is equal to that used in machines selling at \$100 to \$150. Perfectly noiseless. Order on approval, 30 days' trial. Shipping weight, about 50 lbs.

No. 728—Supreme "Worldlight" Lamp. Has colonial design standard with 12" artistic art glass shade. Best mottled glass shade, mounted with ivory points. Placed in position. Order is on approval. **30 DAYS' TRIAL**. RETURN CAREFULLY WITH SETTING UP.

No. 729—Price, at Winnipeg... **\$13.75**

SAFETY The Worldlight Lamp was awarded the gold medal at the International Exhibition, St. Louis, 1904, and has been recommended by hundreds of light experts all over the world. It is safe as a lamp can be made. You can turn it upside down and it will burn just as well as in an upright position. It can be used without spilling oil. It does not smoke, and has no odor. It is the safest and most satisfactory light ever devised.

The Lamp itself is handsomely decorated with ivory and metal. The shade is made of heavy art glass. The shade is set and ornamented. The shade is heavy and sturdy. The lamp is attractive in every way.

SPARKLESS The Worldlight Lamp is just as simple as it is safe. There is no risk of burning. It is safe as a lamp can be made. It is safe as a lamp can be made. It is safe as a lamp can be made.

WITH EACH LAMP WE INCLUDE a glass, a burner, a mantle, a chimney, and an instruction card which shows how to set up and operate the Worldlight Lamp.

SENIOR WORLD This is the beautifully designed Chinese Chippendale shade, large artistically designed base and standard. It is made of high, and shade is 12" in diameter. Burns kerosene. 335 candle power. Good for three feet trial. No. 728—Price, at Winnipeg... **\$10.50**

WORLD LANTERN Has large front, nickel-plated. Two powerful mantles giving 335 candle-power. Burns 85% oil and 15% kerosene. Can be used for boiling small maccaron or bottle (see small sketch). Order one on approval. No. 729—Price, at Winnipeg... **\$8.50**

BURNS KEROSENE OR CASOLINE Either kerosene or gasoline can be burned in the Worldlight lamp without change of shade. The principal fuel, however, is not oil, but gas. The Worldlight Lamp actually consumes but 3% of oil to 97% of gas which explains why the cost of lighting with it is so small.
