

mach II
By **Arrow**

puts its vest-look forward

Mach II is today's styling. Take their suit selection—no sleeves and buckled front straps. A vest that stops with two pockets. A look that demands a shirt that's radical in nature. Start with a low-rise collar. Stop with a triple-buttoned cuff. And a collar that has to be closed with two buttons. Mach II for those who feel there should be an alternative to tradition.
