By HUNTER S. HUTCH It was announced Tuesday that Premier Ricky Hardfeel had reached aggreement with president John DeLorean of DeLorean Motors to open a new automobile manufacturing plant in New Brunswick. When asked to define the terms of this

time and I feel a businessman of his competence and integrity can bring prosperity to New Brunswick." Hardfeel went on to note that the plant will be located in the hard-pressed Miramichi region on the Northeast shore. The construction contract was granted to Rocca Construction of St. John. Although it was open to tender

all other interested companites mysteriously withdrew their bids before a decision could be made. DeLorean and Hardfeel met last week in New York to hammer out the terms of this agreement. DeLorean operates plants in Bogata, Colombia and Lima, Peru and said New Brunswick would be a perfect spot to market his special edi-

tion "Snow-mobile". This car is known to travel at speeds beyond the sense of reality and comes equipped with dual turntables and a wide selection of Lionel Ritchie video discs. Hardfeel personally test-drove the car with DeLorean while visiting his plant in Bogata. As the premier noted; "the altitude in Colombia is hard on my breathing but the higher I get the better the car performs.

Critics of the agreement noted the failure of DeLorean's first car plant in Dublin, Ireland and his subsequent arrest for trafficking in cocaine were grounds for not accepting an auto plant financed "by this crook." Hardfeel was adamant in his refusal to accept these See Auto, page 2

The best definition of humour I know is: humour may be defined as the kindly contemplation of the incongruities of life, and the artistic expression thereof. I think this is the best I know because I wrote it myself.
