

Issue of Rations, it appears to me
 in every account preferable, that
 I should repair with Mr. Cleck
 to the Grand River and there make
 the distribution, availing myself
 of that opportunity of carrying
 into effect, the various orders
 that have been conveyed to you
 respecting these tribes.

I was a short time ago favoured
 with the perusal of a private
 letter to the Lord Bishop of the
 Diocese, in which the writer
 mentioned amongst other matters
 relating to the Indian Department
 that the Attorney General had
 proposed a Bill should be brought
 into the Legislature, to prevent
 the sale of the spirituous liquors
 to the Indians - as I am not in
 the habit of marking the papers -

- Secretary
