You will note that we have got started to operate on this limit and as we are not sure whether we will be able to finish in 3 more years would ask you therefore if we work continuously and are not able to get all the timber off will you grant us enough further time to get it off. We are strictly temperate men + treat the Indians well giving them all work when they want it. Allow no booze on the place + try to do things right.

Yours truly
James Ludgate.
