Sir: Re: Silver

As Canada's future is inevitably and increasingly bound up in Pacific trade, the restoration of Silver as advocated by you is of paramount importance.

Reuter's message of April 30th is an absolutely correct reading of the problem and a splendidly thought-out solution.

Pardon the personal note, but if you press your point to the exclusion of all else I am sure your success (so vitally essential at this juncture of the world's unparalleled depression) will round off an interestingly constructive career.

With best wishes for the outcome of your proposals, I am, Yours faithfully,
W. W. England.

Shanghai, May 1st 1931
