

Ottawa, December 30th, 1930.

Sir:-

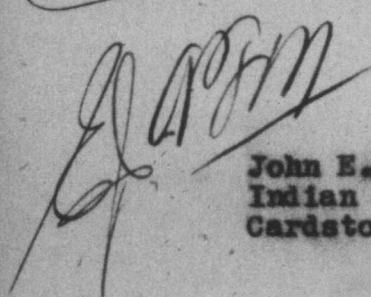

In examining the Blood annuity pay-list, the totals at the foot of the first page show 23 men, but the additions show that there should only be 22. Your total on the same page is put down at 103 persons as paid \$545.00, but the actual addition, as per your pay-list, should be 102 persons paid \$540.00. No doubt you have made a clerical error somewhere in making out this first page. Kindly look up the matter and advise the Department.

Your obedient servant,

A.F. MacKenzie,
Secretary.
