# Get Ready for Spring Roofing

When you build, you want the roofing that will give you the best service—that will last so long that its cost per year is less than any other.

Paroid has proved in actual use on farm and dairy buildings, on factory and railway buildings, on government buildings at home and abroad, to cost less per year than any other roofing.

There are good reasons for it:

It is better made and is made of better materials.

Its basis is a better, tougher, more durable felt—made in our own mills. (Established in 1817.) We are in position

## PAROID

to know that it is. You cannot afford to buy a roofing made from a cheap felt nor from a manufacturer who does not make his own felt.

Paroid has a thicker, smoother, more pliable coating than any other ready roofing. It is better all the way through. You can see and feel the difference.

It is the only roofing laid with square, rust-proof caps which do not rust nor work loose and which have the largest binding surface.

Read our offer and let us prove to you its superiority. If your dealer cannot supply you, don't take a substitute. Write to us direct. We'll pay the freight.
