

The Fence You Can Depend On

Peerless is *better* fence because it is made on right principles, from good material, by good workmen—in a well equipped factory.

The **PEERLESS** lock holds the horizontal and cross wires securely at each intersection. Ample provision is made for contraction and expansion due to sudden changes of temperature, sudden shocks, etc.

THE BANWELL HOXIE WIRE FENCE COMPANY, Ltd.
Dept. B, Hamilton, Ont. or Winnipeg, Man.

PEERLESS Fence is made of all No. 9 hard steel wire—well galvanized. When well stretched it never sags—never bags—looks well and wears well. That's why it is "the fence that saves expense."

Improved farm equipment means larger profits for the farmer. PEERLESS Woven Wire Fencing is the latest improvement in farm fencing.

Our free booklet will tell something new about fencing. A postal card will bring it.

To Turn Any Kind of Stock

This Scraper Cleans Disc Thoroughly.

That we have garnered a rich harvest of knowledge during our 70 years' experience is demonstrated in the construction of our "Windsor" Disc Harrow. Try as hard as you please and you'll not find a more strongly or wisely constructed harrow. The "Windsor" is built on the "out-throw" principle—to cut uniformly the length of both gangs in any soil you'll encounter in Canada. Try the "Windsor" on your land and just watch it pulverize your soil. Unlike ordinary harrows, the "Windsor" has scrapers that thoroughly clean its stiff, sharp, toughened steel discs. Wet, sticky soil, grass, roots and fibre are quickly removed from the discs by the strong, cutlery-steel blades on the scrapers. Built in 6-ft., 7-ft. and 8-ft. widths, and for use with two or three horses.

The "Lion" Disc Harrow is another example of "Frost & Wood Quality". An *in-throw* harrow for those who prefer that style. Two sizes, 12 and 14 discs. Both "Windsor" and "Lion" have substantial Bearings and Square Steel Axles, that run through the discs, keep them tight. No chance whatever for the discs to slip. No side draft on either machine.

Why This MOWER Beats Any Other ON EARTH

WHETHER you think of buying a mower now or might buy one ten years from now, we want to tell you how good a mower we've got for you. The Dain Vertical Lift Mower is the smoothest working, lightest running, easiest pulling machine on the market. You can thoroughly understand it at once and see its vast advantages of build. The high drive wheels, for instance, insure lightest possible draft and enormously increased traction. The cutting apparatus, carried on the wheels, by means of an adjustable coil spring, uses every bit of power, reduces useless friction and lessens pull for the team.

The long plman gives a smooth, strong, unerring stroke. The gearing is all on the left where it offsets the weight of the cutting-bar, altogether doing away with side draft. Many other desirable, exclusive features help make the

DAIN Vertical Lift MOWER

easiest to run, sweet in results, most perfect in construction, most durable, altogether most satisfactory and so simple a boy can handle it easily.

Built with utmost care, entirely of selected materials, withstands hardest wear and tear and sticks right to business all the time. The same "Dain" on a Mower or any other lay tool is your guarantee of highest excellence. It is backed up by the perfected result of a quarter century's successful experience. Ask your dealer about this Dain Vertical Lift Mower, or write us for interesting descriptive booklet.
