About fifteen years after St. Matthew wrote his Gospel a letter was read from the Apostle Paul, in which the following words occur: "The chalice of benediction which we bless, is it not the Communion of the Blood of Curiet 2. And the bread which we Christ? And the break which we break, is it not the partaking of the Body of our Lord that which also I delivered to you, that the Lord Jesus, on the night in which He was betrayed, on the night in which this was brake it took bread, and giving thanks brake it and said : "Take and eat; this My Body which shall be delivered to you. Is Christ in the Biessed Euclarity: Is it because they see any obscurity or ambiguity in the words of the Gos-pel of St. Paul's Epistle? Not at all. They must acknowledge that the declaration is as clear and strong as claration is as clear and storing as words can make them. But it is be-cause they cannot comprehend the miracle. #### The Saviour's Lesson.

In a certain true sense the most im-pressive lesson of Our Lord's life was that which He taught us concerning the spirit of prayer. It was a lesson which He took thirty years to teach-nay, even in His public ministry, the greater part of the time was conse-crated to neaver. For thirty years un-Munchausen. "And yet, my brethren, we live to see railroad cars propelled by steam and steamships plying across the ocean. We have lived to see our streets and homes lit by electricity, the chained crated to prayer. For thirty years un-known in Nazareth, He taught us how to live, and by our hidden lives of prayer glorify God and contribute to the salvation of souls. Just as the sector power of nature is forever in action and unprecived save in its lighting impels our chariots through the streets, and we may now converse with our friends in a distant city as easily as if they were with us in the same room. How are true are the words of Hamlet: that Lie action, and unperceived save in its great results, so was the bidden life of Our Lord transforming the world. And There are more things in heaven and earth, Horatio. Than are dreamb of in your philosophy. so is the world being transformed now for good, as it has been since the days of Our Saviour-by the secret influence " A religious body that respects a mystery because it is incomprehensible contains in itself the seeds of dissolu-tion and will soon end in rationalism. of the lives of the just.

NEED NEW BLOOD IN SPRING TO BRING HEALTH AND STRENGTH. Spring blood is bad blood. It is

clogged with impurities that makes themselves felt in miny ways, such as pimples and eruptions, poor digestion, occasional headaches, twinges of rhue matism, a lazy feeling in the morning, and a strong desire to avoid exertion. Sometimes the nerves are unstrung, sometimes the nerves are unstrung, you feel dull and depressed, and your strength is slipping away. You can only be put right by enriching the blood and driving out the impurities. Purgatives won't do this-they enly love of Christ for us in the institution of this sagrament our hearts would melt make you weaker. What you need is a tonic, and the best tonic that medical science has yet discovered is Dr. Wil-liams' Pink Pills. These pills actually make new, rich, red blood, brace the to become only of our bone and ness of our flesh. #### Acts Like Oxygen.

Liquozone is not made by compounding drugs, nor is there any alcohol in it. Its virtues are derived solely from gas-largely oxygen gas-by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant sub-ject of scientific and chemical research. The result is a liquid that does what

oxygen does. It is a nerve food and blood food-the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying, Yet it is an absolutely certain germicide. The reason is that germs are vege-tables and Liquozone -- like an excess of
