REGISTERED SEED

No seed may be sold as registered
seed except that which is inspected,
sealed and tagged by an inspector
of the Canadian Seed Growers' As-
sociation. All registered seed is
inspected in the field while growing
to ensure its purity, and is further
inspected after cleaning to ensure
its high quality. All registered seed
is guaranteed pure as to variety,
free from seeds of other cultivated
plants, free from noxious weed
seeds, well matured, clean, sound,
plump, well colored and germinating
not less than 85 per cent. Registered
seed is undoubtedly the highest
quality of seed grain and potatoes
available. Its production requires
infinite painstaking and patience
and its value is much more than
that of ordinary seed.

P. H. SPRAGUE, Oldest Breeder of
Rhode Island Reds in the West.

OLDEST BREEDER OF REDS

I have devoted my entire time to the poultry business since 1882-36 years. I have bred Rhode Island
Reds longer than any other breeder west of New York. My stock is the best money, experience and care-
ful breeding can produce. Everything that goes toward making fine Rhode Island Reds can be found in
my flock. My birds have the type and color that is demanded by the leading judges of this country.
My prices for eggs and stock are less than half what some others charge for same quality.
One of my customers says: "The only difference between your eggs and the \$15.00 to \$25.00 kind is the
price." My illustrated Red Book tells what I do and how I do it. 1918 Red Book now ready. FREE.
