Best Week's Work (Nov. 23 to 29)	- - - - -	220 feet
Total No. of Blasts	- - - - -	140
Rock Removed	- - - - -	2270 cubic yards

COMMENTS

The Superintendent, Mr. A. C. Dennis characterized the ground as follows—
"Driven down grade through rock that could not be broken over six feet per round."

The Assistant Superintendent, Mr. J. Fowler, comments as follows—
"Pump had to be placed in face before dropping bar to drill lifters. After the machine men had finished drilling the top holes of heading and while waiting for the muck to be cleared away they would oil the machines and have the hose lines connected, so that when bar was dropped and fixed the machines would be running in one and a half minutes. Have a very high opinion of your machines."
