Gorizia, whose anticipated fall had scarcely a single sign of progress or enterbeen so frequently mentioned, was still in prise. We who live here know that no the occupation of the Austrians, though increase of population, no real progress it has been so long attacked, and with whatever, will take place until a system such vigor and determination, by the of water supply is installed; and that even

the advantage of the Central Powers and other town in the Province. Conference their Bulgarian ally. It may afford us or no conference, St. Andrews must have some comfort to reflect that the Teutonic successes, great as they were in Serbia fore its townspeople can reasonably hope especially, were in no way decisive, and for or expect any further development, be conducted more satisfactorily without were only achieved with enormous losses or even to hold its own. in men. From this on, the battlefields of the Balkans will continue to be of absorb-

ing interest. announced of the future attitude of Greece and Roumania, and it is useless to speculate or prophesy concerning the matter.

SOMETHING TO THINK ABOUT

THE Patriotic Sale which took place last Saturday, and which was so admirably conducted and produced such satisfactory results, should cause the townspeople to consider the advisability of utilizing the idea to their future benefit. A great number of visitors came to Town to attend the sale, and many of them from the Islands were extensive and liberal buyers, well supplied with money. The sale was well advertised, which accounted for the large number that attended it in spite of the unpropitious weather in the sale was represented by the sale of the material worked upon. In the case of hand labor there is greater elasticity, and the result is limited by the skill of the workmen rather than by the uniformity of the material worked upon. In the case of hand labor there is greater elasticity, and the result is limited by the skill of the workmen rather than by the uniformity of the material worked upon. Wake Up! New Brunswick!

This World War Demands the Supreme Effort of a United Empire.

Shall Our Province Fall Behind?

It should not be supposed that contributions of a couple of thousand men, a few odd dollars, some barrels of potatoes and boxes of socks constitute our rightful sacrifice. So far and boxes of socks constitute our rightful sacrifice. So far not more than a handful of people in all this country have any actual realization of what the war means. These few have given their husbands or sons to the cause of the Empire. The remainder have done nothing in comparison with their abilities and their opportunities.

Our national life, our peace, our prosperity and our happiness are so dependent upon the well-being of the British Empire that only by playing our part in that Empire can we maintain our fortunate position.

Up to the present ninety nine per cent. of us do not realize what sacrifice means, nor what is being endured by those nearer the firing line than we are. We must give, not only of our material wealth, but of our blood, and not niggardly, but with a generous hand.

None of us wish to part with our husbands and our children, but it is better that they should serve the Empire and save our homes than that the enemy should triumph and all that we hold dear be taken from us. "For Romans in Rome's quarrel Spared neither land nor gold, Nor son nor wife, nor limb nor life, In the brave days of old."

The 104th Battalion requires a largenumber of men from New Brunswick. These men must be furnished at once, and must be recruited from New Brunswick homes. We cannot ask strangers to take our places. The duty before us is clear, however hard the part may seem. Some will lose their lives; others will be maimed; many will return.

MEN OF NEW BRUNSWICK—Once upon a time there was a man who said that he would rather be a live coward than a dead hero.

What is Your Choice at the Present Time? The Question is Up to You Today!
