

CONFIDENCE OF THE FRENCH IN THE FUTURE IS ABSOLUTE

Finance Minister Ripot Issues Most Encouraging Statement Upon Financial Strength of Country

By Courier Leased Wire.
London, Monday, Sept. 11.—(New York Times)—The Times' Paris correspondent sends a statement made to him by M. Alexandre Ribot, minister of finance, on France's financial strength. He said:
"The confidence of Frenchmen in the future is absolute. The strongest proof of this is the loan we raised last year, which furnished us with a capital of 15,000,000,000 francs (\$3,900,000,000) and still stands three points above issuing price.
"The point which is occupying our serious attention at the present moment is to devise ways and means to pay for our purchases abroad and to insure greater latitude on the American market in the matter of trade. We are endeavoring to enlarge the basis of our commercial credit, which is somewhat hampered by the methods in practice in the United States.
"In this matter we hope shortly to secure a definite improvement. I may mention that a very satisfactory arrangement was arrived at during the last meeting I had at Calais with Premier Asquith and Mr. McKenna, on August 24.
"England is anxious to strengthen her gold reserve in order to maintain her gold standard and enlarge the scope of her credit in the United States. The Bank of France has even at this stage of the struggle a

gold reserve exceeding 4,000,000,000 francs (\$800,000,000). We were, therefore, in a position to promise England a considerable sum out of our abundance. Russia also promised a certain amount of gold and Italy likewise, in proportion to her capacity.

"Thus the allies are, if I may say so, pooling their gold in order to render their collective financial position still more solid. We are placing this gold at the disposal of the British treasury as a loan, and the treasury will open credit in pounds sterling in our favor in London. The arrangement, as you see, cuts both ways and is altogether in the common interest of the allies. The gold loaned by us will return to the coffers of the Bank of France after the war."

RUSSIANS OCCUPY TOWN OF BANA

Defeat and Put to Flight Turkish Troops in Persia.

By Courier Leased Wire.
Petrograd, Sept. 11, via London.—A victory for the Russians over Turkish troops in Persia is reported in today's War Office statement. In the region of Sakiz, the town of Bana has been occupied by Russian forces following a battle in which the Turks were defeated. Russian troops are now pursuing their beaten foe, adds the statement, which follows:
"On the Caucasus front, in the region of Sakiz, the Russians have occupied the town of Bana, after an engagement and are now pursuing the enemy.
"During Saturday and Sunday, a fierce battle continued in the region of Ognott, west of Erzincan (in Turkish Armenia), where on Saturday the Russians captured four of their 240 Askaris, one machine gun, one Howitzer and two cannon. The cannon we had to destroy and throw over the cliffs, as it was impossible to carry them away."

ATHENS UNDER MARTIAL LAW.

By Courier Leased Wire.
Athens, Sunday, Sept. 10.—Athens is virtually under martial law. Patrols of infantry and cavalry parade the streets and the Entente legations are under strong guard. Fifteen hundred marines have been added to the garrison here on account of the uncertainty in regard to the attitude of the troops. The excitement caused by army disaffections at Saloniki, however, is dying out.

VERY SERIOUS

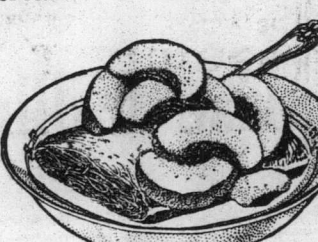

Is the Aspect of New York Strike. Labor Men Threaten Sympathetic Strike.

By Courier Leased Wire.
New York, Sept. 11.—With the leaders of 750,000 labor men of Greater New York threatening a sympathetic strike, traffic on the subway and elevated lines in Manhattan and the Bronx impeded, and the surface systems in those two boroughs and Westchester county, virtually tied up, the general strike situation assumed a more serious aspect to-day.

Samuel Gompers, president of the American Federation of Labor, declined to discuss the probability of a general strike, but union leaders asserted that if necessary 50,000 union men could be called out within six hours. Traction officials attribute the falling off in service on the subways and elevated roads to the unprecedented traffic caused by the stoppage of all the surface lines. Union leaders claimed, however, that the defection of heretofore loyal employees of the roads was responsible.

The police and sheriff's forces of Atlanta, Ga., are engaged in a determined effort to suppress "walking blind-tigers" which recently have been doing a land-office business.

FRENCH OFFICIAL

By Courier Leased Wire.
Paris, Sept. 11.—"On the Struma front: British troops crossed the river at Ortiak, under the fire of the enemy and attacked on the left (eastern) bank, the villages of Novolyen and Karababes, where the enemy is obstinately defending himself."

"From the region west of Vardar to Lake Doiran our artillery violently bombarded Bulgarian positions and made some effective practice on the enemy's batteries."

"On the Serbian front a fresh withdrawal of Bulgarian advanced posts is reported."
"The night was calm, on the remainder of the front."
"Last night ten of our aeroplanes dropped sixty bombs of heavy calibre on important military factories south of Bruges. The bombardment was carried out from a height between 400 and 800 metres and was very effective. On the same night aeroplanes and other military establishments north of Somme. Py. Violent explosions were heard. Finally, one of our air squadrons attacked the barracks and aerodrome at Sautbury (in Lorraine). Twenty well aimed bombs of heavy calibre inflicted serious damage."

London, Sept. 11.—The conclusion is drawn from the official French report in regard to operations in Macedonia, that an offensive campaign has been inaugurated. In addition to the British attack along the Struma, the Serbians already are advancing against the Bulgarians, who some time ago crossed the Greek frontier near Lake Ostrovo, and made a quick advance southward. Since that time the Bulgarians have retired considerably under pressure. The French also are forcing the fight, attacking from the Vardar to Lake Doiran.

The Cook Quit

And we were "up in the air" about it because the wife knew nothing about cooking. She tried her best and meant well, I guess, but her first attempt at a meal convinced me.

So we had just about decided to eat in restaurants when suddenly my wife struck a bright idea. "Why don't you call 139 and insert a help wanted ad for a cook in The Courier?" she said. And I did—

EVEN'S WINS GOLD TITLE OF AMER

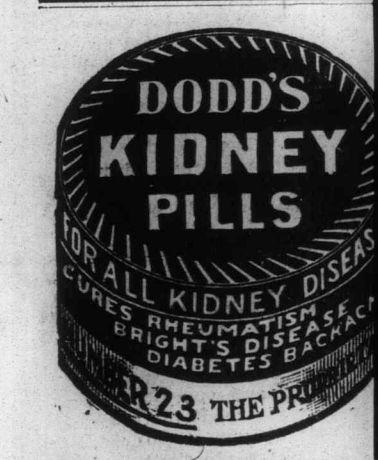

Was Winner in Both C and Amateur Events This Year.

Philadelphia, Sept. 11.—The best honors in United States golf to Charles Evans, Jun., of the Water Club, of Chicago, when he defeated his fellow townsmen, R. A. Gardner, of the Hinsdale, 4 up and 3 to play in the final of the national amateur championship tournament held yesterday.

Already the holder of the championship, which he won in Minneapolis in June, he is the player in either the United States or England to capture both titles in the same year. Harold and John Ball, English amateurs, won both titles, but both in different seasons, while in this country, as is usually the case in a country where two experts meet for a great honor, the match was a mixture of championship and mere golf, particularly in the noon round. After luncheon, pair played a game which was short of perfection, until Gardner cracked under the strain after twenty-ninth hole, and from the he had no chance.
