## Those Corsets Are Being Cleared Out Fast At 25c

People hesitated for a time when they came. Could hardly believe their own eyes when they saw \$1.00 and \$1.25 corsets advertised at 25 cents. A mighty reduction. They naturally thought there must be something wrong with them. Nothing at all. Only these have been overlooked by salespeople or were slow sellers.

Regular \$1.00 and \$1.25 lines now selling at 25c.

Many of the most popular lines of corsets almost every style and size.

You will never get a bigger bargain than this.

## Style Hints for Spring

## Filmy Effects in Wash Gowns

How lace and embroidery is used is the one new thing in the tale of this summer's wash gown. This means of course the dressy gown which, by the way, is of finer quality than it has ever been. It is made almost without exception with a medium length round skirt, and with many new ways of elaborations. However it is the Princess model upon which everything is based.

The Princess gowns like the skirt waist, mean comfort especially in wash materials and women will wear them. The mere emancipation from the belt slavery is enough to predict that they will be stable and the woman who wants to evolve pretty things cannot do better than put her efforts in mastering the art of putting together her laces and insertions in this graceful fashion.

## Right Good Value in Rubbers

### WOMEN'S RUBBERS.

Women's storm or low cut rubbers, with French, military or low heels, in popular zephyr weights. Seventy-five cents the Pair.

### MEN'S RUBBERS.

Men's rubbers in the popular "clog" or everstick styles, low cut and storm shapes in zephyr weight. One Dollar per Pair.

Men's low cut or storm rubbers, big value. Eighty-five Cents a Pair.

## The Values in the New Muslins and Organdies

## Are Creating Much Enthusiasm

The remarkable values in the new mammoth assortments of Muslins and organdies are creating much enthusiasm among lady shoppers. Never before did any other store in this city show such large assortments of such truly big values as those that await you here in our enlarged Dress Goods Section.

## Decided Novelties in Plaids Are Still Popular

### Muslins

Here is a dainty small blue line checked ground, covered with dainty garlands of roses and small blue dot circles in which centres a miniature rose bud. Very effective, and hold it to the light this fabric has a silky sheen.

OTHER MUSLIN NOVELTIES in red or sky and several pretty shades with "fetching" effect in a small line silk check or silk finished check. The lines forming these plaids have a certain bulky appearance which gives a weighty effect to these otherwise sheer fabrics.

### Organdies and Dresdens

THE ORGANDIES AND DRESDENS ARE IMMENSE. Indefinite floral designs with varied widths of silk stripes abound.

The Organdies are simply immense. Never before were ever shown in this city such a variety of weaves and colorings.

### One that Catches the Eye

One that catches the eye first is a dainty floral effect with a shadowy moss rose pattern over which runs a dainty white silk stripe. Hold it up in the air—it floats. Fancy the summer girl attired in a gown of such elegant fabric.

There are others with double narrow stripes while others of a single wide stripe. The prevalent color tones are reds, blues, purples, and here and there a touch of green in leaf or twig.

WE ARE NOT SURE but this one just here appears to be a muslin, a little coarser mesh than muslin, however. A white ground with a single wide stripe made up of fine blue lines. Very smart for a new blouse we should say.

Beautiful dark heather mixtures in zephyrs and shepherd's plaids in mercerized goods—Silkolene sometimes it is called.

We have this same silkolene in a dark red with white dot, also light blue with self stripe and white dot. These are figured at 40c a yd.

## Further Details of Organdies

Here is almost a silver and blue black color tone. A dark blue organdie with a double narrow line, self check and a lightning or flashy break of white representing what is best described as two chrysanthemums, the petals being outlined in mere dot lines of black. Of course the plaid shows white and silky across the flowers.

## Self Colored Swiss Dot Muslins

### Heretofore Unobtainable

Self colored Swiss dot muslins have heretofore been practically unobtainable. For summer gowns these same goods will simply be stunning. The shades are light and dark blue, mauve etc., with the single white dot.

## Charming Effects in White Vestings

White vesting will be popular. We have them in spots, stripes, checks and embroidered effects. They are mercerized or silk finished fabrics. Big assortment at 20c and 40c per yd.

## A Novelty for Shirt Waist Suits

Light and dark blue and fawn fabrics resembling Shantung silk. They have the shimmer of Shantung and also the weight. This of course is plain colored goods and it strikes us they would make up swell in shirt waist suits.

## Sturdy Leathers in the Men's Spring Footwear

Also Something of Interest About the Great West Shoe

IN opening up the new arrivals of THE GREAT WEST Shoe for men we are greatly "tickled" to see how good they show up in the stock. When the high prices of hides and leather are taken into account we believe the values offered in the Great West are such as surpass anything on the market.

Men's choice gun metal or dull finished shoes made with heavy double soles. These are blucher laced boots and the last is very new in the swing style. The particular advantage of gun metal is that it polishes to perfection and retains same longer than any other leather. When you see the line you'll be convinced at \$4.50.

Men's Velour Blucher cut laced boots, Goodyear welted, single soles, neat new shaped toe. A straight last, \$4.00.

Box calf leather lined blucher cut laced boots, Goodyear welted medium sole full-fitting. FOUR DOLLARS also.

Men's Military Congress of good quality box calf, Goodyear welted, \$4.00.

Extraordinary value in a Men's Box Calf blucher cut laced at THREE DOLLARS.

## A SURE SELLER TO THE OUT-DOOR MAN.

Men's Imperial grained blucher laced boot, bellows tongue, right to the top, shanks reinforced with rivets, viscolized sole. THREE FIFTY.

### FOR A V.

Another splendid number in a ten inch big box calf lined boot made with heavy viscolized soles, bellows tongue to the top, \$5.00.

## Get Your Shoes Repaired Here

### Good Workmen and Prompt Service

These are the days that people are getting their footwear in good shape for the mud and wet of the coming spring.

## All this Week

The demonstration of Gold Standard Teas, Icings, Jellies, etc., will continue all this week. This demonstration is in charge of Mrs. Hubbard an experienced demonstrator. You will find her ensconced behind a steaming urn in the Grocery Section. Be sure and drop around to her booth.

From Morning Leader

Regina today is in the Grains. The big convention of the largest in the history of the province—opened yesterday while this afternoon the Lieutenant Governor opened the Legislature.

The Grain Growers' Association has no time in getting down to business which calls for a gathering together, and from that President Hopkins gathering to order until last night for the day it was strictly business. No nonsense, no indulgence in the sake of talk, no abatement of the earnest desire of corporations or the law to arrive at a solution of the problems of the province today are the keynote of the grain growing industry.

Fraternality. In opening the convention Hopkins stated it was a custom since the association had been formed to extend the hospitality of Manitoba. The executive this year, departure from this rule, asked both district and representatives. He then such representatives present to the platform.

Responding for the Manitoba Mr. Millar, of B. expressed his pleasure at the fact that the Saskatchewan movement, and the Manitoba had quickly followed were meeting in the capital as the Legislature was called in his opinion the Grain Growers' Association was the most important of the province, and if the farmers they had in the past, the country. Whatever farmers wanted the would pass, but they must be ready to act.

Whatever farmers wanted the would pass, but they must be ready to act.

Mr. Knowles, of Emerson, last speaker from Manitoba before dealing with large numbers of delegates. He expressed a feeling that not business men, but farmers, should be in the convention to conduct the business of the province. He said they would continue the respect, support and the public.

Mayor Smith, Ald. C. man of the civic reception and City Clerk Hunter before the convention. In a short speech officials warmly welcomed the delegates to the city. He referred to the present prosperity and its extensive civic life, and permanent works, all, he said, would not be it were not for the farmers who had built the city. The farmer was just as necessary as any other history of the Grain Growers' Association in the province. He hoped would receive noxious weeds. They country clean if they wheat and the best. While he admired the association had done great and inspection of wheat and the best of the country. These other things should be looked. He concluded all to a civic banquet.

Ald. Cowan seconded welcome, which he saluted in any selfish places made a practice conventions for what out of them, but Regina had proved that the association was necessary. The people and of other professions with and were ready farming only too often know what was required legislation along the line make for greater growth. He hoped would take such actions would follow so alluring that the would not only find it and attractive, but would the people of the farm, from which many others, had come. City Clerk Hunter for the secretary admission banquet for all the delegates Hopkins returned the association to the not, he said, the first met in Regina, and the best right royal welcome.

Before proceeding to the annual address, President "I might say that this address is an important one. In fact, I have
