EXTRACTS FROM REPORT OF PROVINCIAL CONVENTION HELD IN TORONTO

Dr. Detwiler, of Kitchener, gave a most illuminating address on the wonderful mission of that protective agency, the Travellers' Aid. So important is this deemed, that Dr. Detwiler has been engaged to tour the province to exploit the work and secure local representatives to assist. Mrs. Ward, of Toronto District, also bore testimony to the effective work of the several matrons supported by her district.

Mrs. Ward, the energetic president of Toronto District, gave a most satisfactory account of the Travellers' Aid in her city. Special appeal was made to the unions of the smaller places to help—particularly through Surprise soap wrappers—as the almost total number of girls helped come from the rural districts and outlying towns.

Mrs. Detlor, reporting on Citizenship, urged the imperative necessity of women informing themselves re the intelligent use of the ballot. Study up the law—municipal and provincial; attend the local nominations; secure women trustees, and keep alert to anything and everything which will promote good citizenship. This will include wise oversight of the children—citizens in the making.

Mrs. Maxwell again pressed her old and wise plea that women feel their responsibility to accept office as school trustees, as so many problems arise which can be dealt with more effectively by women. Our superintendents must be cheered to note the increasing number of women who are taking heed in this matter, and also that those who have served on school boards have invariably made good.

Joy and Gladness for the Children.

Every child—whether it be poor or rich is entitled to joy and gladness. Health is the birth-right of all and there is absolutely no doubt that the healthy baby is a happy baby. It is the baby's nature to be happy—not cross. Only the sickly baby is cross. The well child is a joy to the home—it is a laughing, gurgling, happy little piece of humanity which drives dull care from the household. The sickly baby is the opposite—he is cross and peevish; cries a great deal and is a source of constant worry to the mother. But mothers there is no need of your little ones being sickly. Regulate the baby's bowels and sweeten his stomach with a gentle but thorough laxative and baby will soon be well and happy again. Thousands of mothers have proved this through their use of Baby's Own Tablets—there is a smile in every dose of the Tablets. Give them to your baby and make him happy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville Ont.

Canada's Huge Coal Bill.

Canada's coal bill with the United States last year reached the sum of \$70,603,005 for a total tonnage of 21,411,813 tons, according to a return tabled in the Commons by Hon. A. L. Sifton, Secretary of State. Canada's 1919 exports of coal were valued at \$10,380,196, and her total production in 1919 was 13,076,300 tons, of which 73,893 tons were anthracite. In the ten years from 1910 to 1919, the value of Canadian home production coal exported mounted from \$5,031,223 for 1,826,330 tons, to \$10,109,722 for 1,826,830 tons. Thus with only 300 tons more coal exported the value was more than doubled.

tinguishing itself just now is the Educational, because the Citizens were never so hungry as now for a better understanding of questions affecting their civic government and welfare. This Committee might do worse than establish the Forum Government in Wolfville. Then there is another matter which very vitally affects the welfare of the Club itself. I mean its own home. Its very name is suggestive of sociability. A very moderate subscription per member per quarter should provide adequate temporary premises, amply appointed for the comfortable accommodation of members, who may turn in for sociable moments any working day of the week between 10 a. m. and 10 p. m., and where, on Sunday afternoon an organized adult Bible Class of the Wolfville citizens may meet. I say temporary advisedly, because I believe that a thoroughly alive Civic Club, such as I see in the vision, will "see to it" that a Memorial building, worthy of Wolfville and those who have sacrificed themselves for it, will, at no distant date, be erected, and which will be the centre and the home of all its uplifting and government activities. Let the Citizens get a glimpse of "the vision," and then watch them "tuck up their sleeves" and tackle "the task". A CITIZEN.

Remove Spare Tire When Washing Car

When having the car washed, it is advisable to remove the spare tire from the rack, whether it is mounted on a rim or not. If it is not mounted it is particularly imperative that the casing be removed.

Water gets inside the casing, and, unless inspection is made, it remains there until entirely absorbed.

If the water permeates the casing it is certain to prove destructive. In case of failure to remove the tire first, then it becomes essential to sponge out the water and wipe perfectly dry. When the tire is mounted on a rim there is practically no likelihood of the water permeating the casing but it will collect around the rim, causing it to rust and making it very hard to remove the casing when it becomes necessary to make a repair.

After driving in the rain it is more necessary to remove all signs of water from the spare tires than it is to wipe off the body of the car.

In the first year of the production of automobiles, sixteen motor cars were turned out.

The Joy of Living

Headaches are generally caused by nervousness or biliousness, and are very exhausting. They should never be neglected, but should be treated at once.

Dr. Wilson's Herbivore Bitters

corrects the cause of headaches, and restores that joy of living not known to headache sufferers.

Pure Air is as Necessary as Pure Food

THE ENTERPRISE BLAZER FURNACE

heats your home in Nature's way. It draws in the sweet pure air from the big outdoors, moistens it thoroughly, turns it into heat and comfort and passes it on to every corner of your home.

The best that base burners and radiators can do is to heat the air that is already in the house—that has been breathed again and again. Stoves choke the air with dust and in real cold weather they fall short of their job. Another reason for the

ENTERPRISE BLAZER WARM AIR FURNACE

is economy. For thirty-five years we have been learning how to take all the heat out of a piece of coal; and then how to make most use of it. The Enterprise Blazer is the result. And it costs a great deal less to install than a hot water boiler, pipes and radiators.

An Enterprise Blazer will wear for years and years. Every part is made a little better than it need be, and it carries the famous Enterprise guarantee of satisfaction. Get your dealer's advice and write us today for our free booklet "Warmth and Comfort".
