MOVIES IN THE SCHOOLS  
The value of moving pictures as an aid to imparting knowledge to school children has long been recognized, and practical demonstrations have been given in many of the larger towns and cities of the world. Educational films are now being featured in many of the moving picture theatres throughout this continent.

In this connection it is interesting to note that movies have been introduced as a feature in Harkins Academy here. For some time Principal J.H. Barnett and his staff of teachers have been endeavoring to have motion pictures established in the public school of the town and on Friday evening 22nd, ult. they saw their hope realized.

An interesting entertainment was also given last Friday evening, at which a large attendance of children and parents was present. Another will be given next Friday evening and the public is requested to attend. In this way it is hoped to secure sufficient funds to purchase the machine which will be used in future to educate the pupils.

Harkins Academy has always prided itself on keeping abreast of the times and this is a great forward step. The success of the plan is largely due to the efforts of Principal Barnett and his staff and the general public should show appreciation of their work by attending the entertainments and interesting themselves in a greater degree than they now do, in all matters pertaining to school education. Educational films have been shown occasionally at the local theatre in the ordinary program, and other features of an educational nature have been put on by the different women's organizations of the town. The value of educational films is being recognized more and more among educationists and the future will no doubt see the general use of movies in connection with schools and colleges the world over.

The following interesting program will be given next Friday evening in the Harkins Academy Assembly Hall:

1—"A Motor Boat Ramble"—A trip from Belleville to Orilla, Ont.; showing operation of Hydraulic lift lock

at Peterborough.

2—"Fishin' Time."—On the picturesque Nipigon River noted for its magnificent scenic beauty.

3—"Canadian Winter Sports"

4—"Sugar Cane Industry"—showing the gathering of the cane, cutting, replanting and straining of the juice.

5—"Cultivation of Rubber in Malay" Showing gathering from the tree to the finished product

6—"Logging in British Columbia"

7—"Siege of Calais"—Showing the last efforts of the French to hold their city; the surrender and the demands of the English King upon the governor of Calais

8—"Bobby Bumps Goes Fishing"—A good comedy

9—"Out of the Ink-Well"—The Automobile Ride." An animated film.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Baby's Own Tablets. The Tablets are a mild laxative that will keep the little one's stomach and bowels working regularly. It is a recognized fact that where the stomach and bowels are in good order that colds will not exist; that the health of the little one will be good and that he will thrive and be happy. The new sales tax will not increase the price of Baby's Own Tablets. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Minard's Liniment Make the Punishment Fit the Crime

USE Minard's Liniment FOR LA GRIPPE SPANISH INFLUENZA, COLDS, COUGHS, SORE THROAT, CORNS, WARTS, ETC.

A farmer had applied twice for permission to have a slash fire. He was refused, and getting impatient set fire to the rubbish one evening when he thought it was safe, but the wind sprang up; the fire spread to two villages, two churches and many houses with their contents, were destroyed, involving a total loss of two million dollars. Two neighbors who had lost everything and were not insured, denounced the man; he was arrested; found guilty, and the judge realizing the enormity of the crime gave him the full penalty allowed by law. It was twenty five dollars and costs! But he had caused a loss to the community of Two Millions

Why should this farce continue? Why should not imprisonment, without the option of a fine be the penalty for such a crime against the community? Why should a man by breaking the law, be allowed to burn up his neighbor's property as well as that of the public, and escape with a trifling fine? Why are insurance rates so high? Because of the acts of criminals such as this. The honest have to pay higher rates because the law lets off scoundrels such as he.

Arson is one of the most awful crimes, for it may result not only in loss of property but of life. And arson is the setting on fire of slash if it results in loss after a re-fusal has been given to fire the slash.

Anyone found guilty of arson should be sent to jail for life as the most dangerous kind of criminal.

DALTONS' GENT'S FURNISHINGS

Rigid Economy At The Capital

Rumors current for some days that the Government was requiring the heads of departments to cut down their salaries, estimates and staffs are now learned to have been well founded according to the Ottawa Herald. Deputy Ministers throughout the service are acting under pressure from the Government and revising their estimates. The revisions on top of cuts already made, will result in extensive reductions in staff, and in salary reductions for a number of the more highly paid officials who remain. In some cases abolition.
