### The Bell Island

#### Ice Blockade.

And we are still existing after the  
ice blockade, which was the worst  
for fully 15 years.

The average reader of the Telegram  
is fully aware of the hardships of the  
winter just passed. He has experi-  
enced his share of it in one form or  
another, but to none has the winter  
of 1911 been such a hardship as to the  
miner at Wabana Mine on Bell Island.

On the 10th of February the heavy  
Arctic ice drifted in the bay and re-  
mained in blocking the Tickle till  
about the 14th March. During this  
period an odd chance offered whereby  
communication was opened with the  
mainland, but only temporarily, the  
ice always closing in after a few  
hours. During this blockade several  
well known citizens were blockaded  
in town, amongst them being the  
manager of the D. L. & S. Co., and the  
Bell Island Postmaster, with many  
others. The experiences related from

the hardships endured are interesting.  
At one time several were ice-bound  
in Spaniard's Bay, others at Kelli-  
grews, more at Portugal Cove, and  
the wise element in St. John's, all  
awaiting an opportunity to get to  
Bell Island from these points. It end-  
ed that eventually all embarked from  
the Cove, some walking across when  
the chance offered, taking two hours  
to cover the distance; some rowing  
across when no steamer was avail-  
able, and others getting across snugly  
on board our "royal" mail steamer or  
the staunch ship Mary.

At one time on Bell Island provi-  
sions were getting short, and were it  
not for the arrival of the Mary from  
St. John's round the back of the Is-  
land while the Tickle was blocked,  
things would have been gloomy. Fresh  
meat was a scarce commodity, and  
flour was verily the staff of life. The  
one "Polar bear" still lingers within  
us.

In view of the foregoing attempt  
at a description of an ice-blockade in  
Newfoundland, we can easily under-  
stand why foreigners know our na-  
tive land as "a land of ice." We also  
know why Newfoundlanders are so  
hardy and daring, and are a race  
justly remarkable for braving the  
elements. EUREKA.

The steamers also fared un-  
luckily. The Euphrates and Progress being  
jammed in Spaniard's Bay a week  
while the former on another occasion  
was welded in the ice and carried as  
far as Bauline, where she was jammed  
nearly a week, the s.s. Adventure hav-  
ing to come to her rescue.

It is all over now and we can af-  
ford to write and talk of the experi-  
ence. The writer has had his share  
of it and doesn't fail to say so. To  
most of us who can term ourselves  
"The Wabana blockade runners" the  
hardships endured on the catamaran  
drives over that familiar Cove Road  
are fresh in our memory. The scene  
of that white wilderness of ice  
stretching from Kelligrews to Bell Is-  
land, again from Portugal Cove to Bell  
Island; and often the scene of the  
whole bay presenting 26 miles of  
white northern scenery (with only  
one "Polar bear") still lingers within  
us.

In view of the foregoing attempt  
at a description of an ice-blockade in  
Newfoundland, we can easily under-  
stand why foreigners know our na-  
tive land as "a land of ice." We also  
know why Newfoundlanders are so  
hardy and daring, and are a race  
justly remarkable for braving the  
elements. EUREKA.

Wabana, Bell Island, March, 1911.

THERIA.

### Bay De Verde Branch Railway.

Editor Evening Telegram.

Dear Sir, Editor.—As we read in  
your paper a year ago the reported  
speeches of our representatives for  
Bay de Verde on the subject of branch  
lines, and noted the intense enthu-  
siasm manifested by our members for  
such a branch line for the North  
Shore, we began to hope that this  
much neglected district was going to  
receive some recognition at the  
hands of the Government. We had  
looked through the district and fail-  
ed to find a Government owned post  
office either in the larger towns or  
smaller villages. Not a single court  
house, although a Stipendiary Magis-  
trate and constable are located in the  
district. An old store in Western  
Bay, worth say \$15 or \$20, is really  
all the public property the Govern-  
ment owns in the district. If I am  
wrong I am open to correction. This  
is no reflection upon our present re-  
presentatives. When we heard that  
the "iron horse" would soon be snort-  
ing from Freshwater to Old Perlican  
we had begun "to build castles in the  
air" and to recount multifarious re-  
volutionizing tendencies of this mod-  
ern civilization; and we had dreams  
of better times for the thrifty and in-  
dustrious 12,000 inhabitants of the  
Bay de Verde District. But alas!

Our Hopes Were Doomed,  
when a few days ago we learnt that  
a survey was going on for another  
branch line to Trinity Bay, although  
the last branch line ran right through  
the headquarters of Trinity District.  
This branch now under survey, we  
are told, will leave Broad Cove, near  
Whitbourne, and run to Dildo, New  
Harbor and Green's Harbor, and  
thence through 30 miles of uninhabited  
country to Heart's Content. All  
these places have splendid harbors  
and regular calls are made by steam-  
er, and so can afford to wait a little  
longer; while the probability of de-  
veloping an extensive traffic of pas-  
sengers and freight is very uncertain  
as compared with the north shore of  
Conception Bay. Now, sir, if the rail-  
way were extended from Carbonear  
to Old Perlican, a distance of 35  
miles, it would pass Freshwater and  
immediate sections, pass through Sal-  
mon Cove and Perry's Cove, and on to  
Spout Cove, Small Point, Broad Cove,  
Mully's Cove, Blackhead, Adam's  
Cove, through Western Bay with its  
five divisions of population, run  
through Ochre Pit Cove, Northern  
Bay, accommodating Gull Island and  
Burnt Point, pass Job's Cove to the  
popular town of Lower Island Cove,  
thence past Caplin Cove to Old Per-  
lican. Between these towns and vil-  
lages there is not more than from  
one to two miles of uninhabited ter-  
ritory. From Carbonear to Blackhead  
there is not a single harbor where the  
fisherman can moor an averaged sized  
schooner. The Ethie has three ports  
of call, but cannot be depended on  
except in fairly civil weather, and yet  
the

Population is Five Times Greater  
than the corresponding shore of Trin-  
ity Bay, while the North Shore is  
practically cut off from St. John's for  
half of the year. Surely it is in the  
interests of both Government and com-  
munity to build the railway where it  
will meet the needs of the largest  
numbers, and especially when the  
largest numbers have the greatest  
amount of natural drawbacks and in-  
conveniences to surmount in fighting  
the battle of life, and also to the con-  
tractor who must subsequently oper-  
ate the road when it is built. Five  
times more people, without harbor  
accommodation, must necessarily  
wait five times more of life's commodi-  
ties, and consequently will pay five  
times more into the revenue, from  
whence the interest must come for  
the money borrowed for the construc-  
tion and subsequent operation of the  
railway. It is high time that this  
much neglected district should re-  
ceive the recognition of which it is  
worthy. It would surprise some other  
parts of the Colony to see the  
amount of good cleared land every-  
where. I can look through my win-  
dow in the summer and autumn and  
see at a glance more cattle and sheep

than the corresponding shore of Trin-  
ity Bay, while the North Shore is

### Now Cured of Rheumatism

Just him \$100.00 for medicines which  
cured him of DR. CHASE'S  
KIDNEY-LIVER PILLS.

Mr. James Clark, Maidstone, Sask.,  
writes: "I suffered for four years with  
rheumatism in my shoulders and joints,  
and it lifted my arms above the head. I  
suffered nearly all the winter and re-  
lief came only when the weather was  
warm. I had tried many remedies but  
none of them gave me relief. I was  
told to try Dr. Chase's Kidney-Liver  
Pills. I bought a box and took it ac-  
cording to the directions. After taking  
one box I felt much better. After taking  
two boxes I was cured. I can now do  
all my work and feel like a new man."

With the use of this medicine, I  
suffered for four years with rheumatism  
in my shoulders and joints, and it lifted  
my arms above the head. I suffered  
nearly all the winter and relief came  
only when the weather was warm. I  
had tried many remedies but none of  
them gave me relief. I was told to try  
Dr. Chase's Kidney-Liver Pills. I  
bought a box and took it according to  
the directions. After taking one box I  
felt much better. After taking two  
boxes I was cured. I can now do all  
my work and feel like a new man.

### French Hair Dressers Are Clever.

Scientists in France have given  
much study to the care of the hair and  
nowhere in the world do men, women  
and even children have such luxuri-  
ant hair.

It was Dr. Sangerbund, of Paris,  
who discovered that falling hair, faded  
hair and dandruff was caused by  
germs, and it was a Frenchman that  
first gave to the world a hair tonic  
that would destroy the germs.

Since the introduction of SALVIA  
into Canada, the people have learned  
that dandruff can be quickly abolished,  
that falling or thin hair is unneces-  
sary, and that everybody can have an  
abundant head of vigorous hair full of  
life and beauty.

It is because Salvia Hair Tonic  
works such wonders that the sale all  
over Canada is phenomenal. The Mc-  
Murdo Drug Co. guarantee to erad-  
icate dandruff, stop falling hair and  
itching scalp in two weeks or money  
back.

SALVIA costs 50 cents a large bot-  
tle at all drug stores and druggists  
everywhere. The girl with the long  
hair is on every package.

McMurdo & Co. are wholesale  
agents for Newfoundland.

than I have seen in nearly a quarter

of a century in other outposts. Every  
man, with a rare exception, has his  
farm and abundance of produce, and  
too inconveniently situated to reach  
a market. The pasturage is good.  
The potatoes, turnips, cabbage and  
beet are of most excellent quality,  
and no talk of potato canker! Given  
the railway and a chance to rise, the  
north shore of Conception Bay would  
Newfoundland far behind and take  
the foremost place in the Colony. The  
people are becoming aroused as never  
before, and we trust that the members  
of Bay de Verde District will bring  
such pressure to bear upon the Gov-  
ernment at this particular and criti-  
cal juncture, as that the interests of  
the North Shore shall be duly empha-  
sized and guarded, and that the Gov-  
ernment will instruct the contractor.  
In harmony with the wishes of their  
numerous supporters and well wish-  
ers, to build the next branch line on  
the north shore of Conception Bay.

Thanking you for space, I am,  
Yours respectfully,  
CHARLES LENCH.

Western Bay.

### Here and There.

A 25 ct. bottle of prescription "A"  
will cure Indigestion, Dyspepsia, etc.  
Postage, 5cts. extra.—mar29.11

WESLEY CHURCH.—On Sunday  
night the pastor will preach on the  
subject "Why young men should en-  
ter the ministry."

All uncomfortable feelings of the  
stomach are relieved by prescription  
"A" only 25 cts. per bottle. Postage,  
5 cts. extra.—mar29.11

FIRST AID LECTURE.—In the Brit-  
ish Hall last night Dr. A. C. Tait de-  
livered a "first aid" lecture to a re-  
cently formed class. Some 30 mem-  
bers were present and took great in-  
terest in the lecture.

PILES CURED IN 6 TO 14 DAYS  
Your druggist will refund money if  
PAZO OINTMENT fails to cure any  
case of Itching, Blind, Bleeding or  
Protruding Piles in 6 to 14 days. 50c.  
—dec6.81.1s

C. E. T. S.—An address on "Tem-  
perance" illustrated with numerous  
lantern slides will be given by the Rev.  
J. K. Bell at the monthly public meet-  
ing in the Synod Building, on Mon-  
day night, at 8 o'clock. Admission is  
free and a warm welcome is extended  
to all.

Electric Restorer for Men  
Phosphonal restores every nerve in the body  
to its proper tension; restores  
vitality, cures all nervous diseases and all sexual  
weaknesses in 10 days. Phosphonal will  
make you a new man. Price \$1.00 per bottle, or two for  
\$1.90. Mailed to any address. The Seabell Drug  
Co., St. Catharines, Ont.

WILL BE EXAMINED.—The s.s.  
Nord Cap hauled up from Harvey &  
Co's. to Franklin's premises yester-  
day to discharge the balance of her  
coal cargo. After discharging, her  
bows, which were damaged on the  
run from Blyth, will be examined and  
if necessary she will be docked for  
repairs.

THE HEALTH REPORT.—During  
the present week eight new cases of  
diphtheria were reported to the  
Health Department and one of ty-  
phoid. There was one death from the  
latter disease. There are 28 cases of  
diphtheria in hospital and one of ty-  
phoid. Being nursed at home there  
are 2 cases of scarlet fever, 1 of ty-  
phoid and 20 of diphtheria.

VIVID LIGHTNING FLASHES.—  
Up around the south shore of Conception  
Bay there was a severe rain  
storm last evening and night, accom-  
panied by heavy lightning. Here in  
the city it rained hard at intervals,  
and away to the eastward of the port  
from 8:30 to 9:30 the sky was often  
brilliantly illuminated by lightning  
flashes.
