Why "Paisley Flour" marks an advance in home baking.

It eliminates the time and trouble taken when using yeast.

Takes away the uncertainty of ordinary baking powder.

It is always fresh and pure, and retains its raising power very much longer than self-raising flour and cake mixtures.

It gives improved results in lightness, fineness and digestibility.

"Paisley Flour"
The SURE raising powder.

—is mixed one part to eight of ordinary flour.

"Paisley Flour" is packed in 22c, 14c, and 5c tins. The 22c tin contains 14 ozs. and will raise half a stone of flour, the 14c tin contains 7 ozs. and will raise 3 1/2 pounds of flour, the 5c tin contains 2 ozs. and will raise 1 pound of flour.

Prescription "A"

Cures Indigestion and Dyspepsia in all its Forms.

It is quite a daily occurrence to hear persons say: Oh, what a feeling of distress I have after meals, fullness of the stomach, heaviness and headache, I feel too tired to do anything. I have no heart to exert myself, and at times I care for nothing. I often have a pain in the pit of the stomach, no appetite, my heart beats rapidly on the slightest exertion. I feel just as tired when rising in the morning as when retiring to bed. My sleep is often disturbed, and I often awake with a sense of suffocation and a difficulty of again going to sleep. I have to be careful of what I eat, and my life seems a veritable burden.

Now, it seems a shame and a pity for persons to be suffering like that when it is in their power to get cured by taking a bottle of Dr. Stafford's Prescription A. A sure cure for persons afflicted with stomach troubles. It can be obtained at

Is your house really lighted from top to bottom or do you still have to take a candle or lamp when you go to the attic or cellar at night?

A great many people who have electricity in the rest of the house have no light in the cellar or attic because it is seldom needed; but, when you do need it, you need it badly.

One Incandescent Lamp set in a Holophane Reflector will give sufficient light for the darkest cellar or attic. Holophane Reflectors are especially adapted to lighting places of this sort as they control the light rays so that every ray is utilized. Wouldn't it be a convenience if you could turn a switch and light your cellar or attic before entering? That means an end to dangerous matches and flames—it means that you no longer need stumble against misplaced boxes and bark your shins in the dark.

We would like to tell you more about electric lighting and more about the wonderful light-saving Holophane Reflectors. May we send a representative to see you?
