HAVANA, June 7. The gravity of the situation in Cuba was emphasized by the issuance last night by President Gomez of a proclamation to the Cuban people, urging them to arm and organize in face of national peril. The President expressed the hope that Congress would vote credits to cover the extraordinary military expenditure. This is in addition to the million dollars already voted. In his proclamation Gomez calls upon the Cuban people to rally to the support of the Government and to take up arms in the cause of civilization and their nationality against the onslaught of barbarian hordes, because if the uprising is not controlled within a short time, American intervention, resulting in the loss of Cuban independence, is inevitable. Gomez intimates that he proposes to take the field in person. A body of negroes attacked the Toledo sugar mill at Marranas, a suburb of Havana, with the intention of burning it, but were held at bay by the guards until the cavalry arrived.

BUDAPEST, June 7. Count Tiesza, President of the Lower House, had a narrow escape from assassination in the Diet this morning. He was fired upon three times by Dep. Kovacs, who then shot himself, probably with fatal effect. Tiesza was uninjured. Kovacs was one of the most militant members of the opposition and was included in those who were elected from the chamber on Wednesday because of disorderly conduct.

CHICAGO, June 7. Lawn Complains
Dear Sir,—Allow me space in your paper to express an opinion concerning the Customs officer here. I would like to know why there should be an outsider sent to fill the position when there are young men here just as capable. Anyhow it shows what interest our member has for his supporters. The Government has been promising the job to some persons of the place the last two or three years, and just as there was a chance given him, they sent a man here from St. John's instead of appointing some one of the place. The member, Mr. Lefevre, was sick enough with his promises when he was around canvassing, and all he wanted was to be elected and he would do it all; but he soon forgot his promises when he got his own hand in the chest. Anyway, anyone that does not try to fulfill a promise is not worth supporting, and if it cost the Colony one hundred thousand dollars to put him last election, it will take double the amount to do it this time. No Flour Made From One Wheat Only Is Good For BOTH Pastry And Bread.

Western Wheat makes a strong bread flour which, however, lacks flavor.

Ontario wheat makes the best full flavored pastry flour. This is because of the peculiarities of the wheat itself. Ontario wheat is rich in nutriment and flavor but lacks strength or strong baking qualities. Western Wheat has the strength without the flavor or pastry making qualities.

"Beaver" Flour is a scientific blend of both, giving you all the flavor and nutriment and pastry making qualities of Ontario wheat with the added strength of the Western Spring Wheat.

"Beaver" Flour makes Cakes and Pastry with the lightness and delicacy of flavor of the choicest "Ontario Pastry Flour", and bread that is truly home-made in flavor with the large loaf derived from the strength of the Western Spring Wheat. It is the one flour that is equally good for bread and pastry—and best for both.

"Beaver" Flour is the original blended flour—the first and foremost in quality, strength and reliability. Be sure to specify "Beaver" Flour whenever you order.

It is said that one of the most popular of the grocer's assistants in town will soon start business on his own account. If such is the case, we predict for this young man a large share of the public patronage.

The Telephone Co. intend pushing its business, and Mr. Williams, the Superintendent, and his staff are now engaged in putting the phone cables through the town preparatory to installing a number of other telephones. The service is very satisfactory and the Central, both here and at Carboneau, are very courteous and attentive. At present the office closes for business at 9 p.m. each day. If it could be managed the subscribers would be pleased to have the use of the phone until 10 p.m. at least. We are looking forward to the time when business will be so brisk that the company will be compelled to give an all night service. Harbor Grace is undoubtedly on the up-grade, and the electric light, telephone and dock are helping it along.

Many of our citizens are complaining of the scarcity of cabbage plants. Other seasons at this time winter plants could be purchased here, but

Idle Imagining. Will Meet in Newfoundland.

I used to guide a safety plow drawn by two buckskin mules; the honest sweat streamed from my brow and lay around in pools. And as I labored in the field I saw the rich drive by; "I wish that I like them were heeled," I sadly used to sigh. "How full of joy must be the man whose wealth's in bales, like hay, who doesn't have to drive a span of bighouse mules all day! It isn't fair that one should bask upon a golden stack, while 'otter man pursues a task that breaks his heart and back." And now I ride around in state, deferred to by the throng; and I have greenbacks by the crate, for which I used to long. I look with envy at the days who ply their farming tools, who wish and wish they had my seeds while stirring up the mules! "It isn't fair," I sigh, "that some should bask in perfect health, while my insides are out of plumb, and can't be cured by wealth. I'm old and battered up, in truth, and yonder tilling cloths enjoy the priceless boon of youth, the first gift of the gods! It isn't fair—there's something wrong! I'm too short-winded now to push those buckskin mules along and guide the safety plow!"

A Poet's Application.

The latest departure in the making of application to the Council Board asking leave to repair a house, is that made yesterday afternoon by our local poet, Mr. James Murphy. It is as follows:—"Unto the Councilors and the Mayor Upon this paper I declare That I, kind Sirs, permission ask, To-morrow to begin a task. Me to refuse, I know you won't. 'Tis to dress up my house's front; It somewhat shabby now appears. It was untouched for nineteen years. So now I do appeal to you If you say yes, the job I'll do." Permission was granted.

(3) Saturday nights at 10.30.

The new regulations have been submitted to the employers and are not agreed to a strike may be the outcome.
