### Progress of the War.

Since the rout of the Austrian armies by the Italians have moved slowly on the various battle fronts and no general offensive has been made by either side, consequently the daily despatches of the week have more or less contained intelligence of raiding operations carried out with much success by the Allies. In this harassing the enemy, no leisure is given him to prepare another of the hammer strokes which hitherto he had been wont to deliver. The state of uncertainty, to which the continuance of the allied raids and sorties, particularly at night, as to when and where the next is going to occur is having its effect on the German command as well as on the German soldiers, and statements made by prisoners taken corroborate this. Many enemy trench divisions are in a perpetual state of funk and surrender almost at sight of the raiding parties. Apparently the object of all these night operations is to keep the enemy not only guessing, but on the jump, and the attainment of this very valuable purpose is of paramount importance, as it prevents the German staff from making dispositions for a fresh advance.

The advice yesterday that Australian troops had made a great surprise attack on the enemy lines as a fitting celebration of American Independence day, and had wrested from the Germans the village of Hamel, as well as taking fifteen hundred prisoners is another evidence of the nibbling process. American troops it is announced took part in this offensive, which shows that they are now well spread over the whole of the front held by the British. Almost simultaneously with this movement the French savagely drove home another attack on the German army near the town of Auchean, and beside inflicting considerable damage were the richer by over a thousand prisoners. About the same time the Italians were engaged in another onslaught against the Austrians near the mouth of the Piave, cleaning up the remnants of the Teutons left in scattered positions.

The Russian situation is not very clear and is evidently a case of every man fighting for himself. News from that country should be discounted, the odds being that it is old stuff repeated.

In Germany matters appear to be growing worse. The rapid spread of Spanish influenza in the principal cities has cut down the workers in various factories and works by one-third to one-half. Other troubles also are manifesting themselves, though very little information is available and the Amsterdam source from which news of internal conditions in the Central Empires comes is not invariably reliable.

That the Allied air raiding over enemy towns has created panic in Germany is patent, and rumours are now current, having been revived, that the German Government is considering an attempt to reach an agreement with the Allies to spare towns within the zone of operations. This is characteristic of the German, and it is to be hoped that any such negotiations will be broken off ere they

have commenced. The German squeals when he gets what is coming to him. More air raids should be in order and the Hun should receive extra doses of this medicine. It is good for him especially when prescribed in large quantities. The air bombs are the pills for his particular complaint, and no overtures to cease administering them should be listened to.

The general celebration of Independence Day in England and France as well as in the United States is a good augury of the cordial relations existing between these powers, and altogether a very eventful week has ended with the honors of war in the Allies favor.

### Notes and Comments

Smile, save and buy Victory Bonds.

Many a man who would steer clear of a graveyard after night is not afraid of a whole park full of spirits.

Not many patriots are privileged to die for their country so often as General Korniloff is said to be doing it.

The Kaiser may be holding his feet in Kiel to prove that he isn't too hanged reckless with his man power.

A burglar at Council Bluffs, Iowa, robbed a grocery store of five sacks of wheat on a Sunday night. Some time within 24 hours his attention must have been drawn to the Food Regulation that for every pound of wheat flour, a pound of some other cereal must be obtained: for on Monday night he did his patriotic duty by making off with five sacks of corn meal from the same store.

And still no light has been thrown on that alleged cash shortage. What is the inference to be drawn? Not so many months ago, had a similar incident occurred, an esteemed contemporary would not have been quite so silent as it is to-day. Is what was wrong then, right now, brother?

Compulsory Education—Is it coming? There are signs on the horizon.

'Tis sweet to swat.  
But oh! how bitter  
To swat a fly.  
And then not hit her.

Get a range finder.

### Royal Silver Wedding.

GEORGE—MARY, 1898-1918.

To-day, July 6th, the King and Queen celebrate their "silver wedding," an event that has not occurred in the case of a reigning Sovereign and his Consort for over a century. Every one of the ten bridesmaids who supported Princess Mary of Teck at St. James Palace in 1893 is still alive. Six of the group are married and two are sharing European Thrones, The Queen of Norway (Princess Mand) and the Queen of Spain (Victoria of Battenburg). Newfoundland offers loyal and sincere congratulations to their Majesties, and hence that both will be spared to celebrate the golden anniversary.

### "A Picture of God"

WHAT A CHINESE MISSIONARY WRITES.

"I was sitting one day by the bed of a Chinese schoolboy who had been at death's door. He had been a Christian only a short time, and was evidently struggling with some religious doubts, for he turned to me and said: 'Pastor Wu, have you a picture of God?' 'Why no, Ho Lin Sheng,' I replied, puzzled at the question. 'God is a spirit, and there could not be a picture of him.' 'But I want to see a picture of God.' 'Then I understood. Before he became a Christian, he went to the temple to worship he saw upon the face of the image before which he bowed the carved expression of the character of the god it represented—merciful, fierce, foolish, or repulsive. And now as he struggled to serve the One God, he desired to see what His character was. So I said 'There is no printed picture of God to see. But you know what the New Testament says that Jesus Christ came to show us the Father.

"When we see how He went about doing good, loving and helping men, and at last dying for them, we know that the heart of God, too, is love. Jesus is the picture of God—the expression of the Father."

The one way to lasting world peace is to give the "Picture of God to the whole world, and to get all to live the picture in their own lives. To help give this "Picture" to the Chinese, the Diocese of Newfoundland will offer in the Cathedral, on Sunday, July 7th, at 3 p.m., the United Offering, for the support of their "Missionary in China." "Let all take part."

### 272,863 Miles

Could any other car but a Buick do it? 272,863 miles, equal to ten times around the earth.

The following is the story of a Buick car built in 1909.

A good answer to the frequent question, "What is the life of a good car?" is provided by the performance of a 1909 model Buick car, which has covered 272,863 miles, and is "still going strong."

The average mileage a motorist covers yearly is 5,000 miles so this Buick has already completed the equivalent of over 50 years of service.

This car a Buick model, built in 1909, first came into world prominence when its owner, Mr. F. E. Slason, of Plainsville, Kansas, U.S.A., was awarded a 500 dollar prize by a large American Roller Bearing Manufacturer, because he proved himself the owner of a car which had probably travelled farther than any other motor car in the world.

Mr. Slason demonstrated to the satisfaction of the contest judges, all men of prominence in the automobile world, that the Buick, at the time the award was made in 1915, had covered a total distance of 261,800 miles.

The car at that time had seen six years of almost continuous service, first as a demonstrating, racing, and touring car, and then for trucking, hauling and delivery service. In its travels more than 15,000 gallons of gasoline had been consumed, and over 300 tires had been used.

On its latest jaunt across the American Continent, the car successfully negotiated the gumbo roads of Iowa, the hot desert sands of Wyoming, and the long climbs of the Rocky Mountains and completed its 11,000 mile trip on schedule time, returning to Detroit, Michigan, U.S.A., on October 5th, 1917, just four months after the start of the trip.

Now, then, doff your hat to the good old Buick!—advtd.

### Food Economy.

Every home in Newfoundland is endeavouring to solve the problem of "High cost of Living."

How many know that Macaroni is far more healthier and nutritious than any other food, and it is so cheap. Catelli's Milk Macaroni offers a change from the every day course that you are getting. Catelli's Milk Macaroni is a body builder and is more nourishing than meat at half the cost.

Every shop in St. John's has a plentiful stock of Catelli's Milk Macaroni, buy a package or two to-day, then learn to cook it properly. First, it only needs to be boiled, you must have the water boiling salted, using a level teaspoonful of salt to every quart of water, a half tablespoonful of butter in the boiling water improves the flavor. When boiling fast drop in the Macaroni and let boil from 20 to 35 minutes, or let it boil until it yields easily to pressures between the fingers, then drain it in a colander, and rinse it thoroughly in cold water, in which it should remain until you are ready to finish it according to any given recipe.

You will find Macaroni and Tomatoes a very tasty dish. Catelli's recipe 48.

Using a small can of Tomatoes to 1/4 package of Catelli's Milk Macaroni. Put layers of tomatoes in pudding dish, cover with macaroni. Season with salt, pepper, and butter. Repeat this until the dish is full. Sprinkle cracker crumbs on the top with bits of butter. Bake slowly for an hour.—advtd.

Published by Authority

On recommendation of the Military Service Board and under the provisions of the War Measures Act, 1914-16, and the Military Service Act, 1918, the following further Regulations have been approved by His Excellency the Governor in Council.

W. W. HALFYARD,  
Colonial Secretary,  
Department of Colonial Secretary,  
June 25th, 1918.

14.—After any class or sub-class has been called out, and after the expiration of the time limited by the calling out proclamation for reporting for service or making applications for exemption, any man, who may reasonably be supposed to be a member of the class or sub-class called out, many, at any reasonable time, be accosted by any Magistrate or Justice of the Peace, or by any commissioned or non-commissioned military officer, or by any police officer or constable, and questioned as to all or any of the following matters, to-wit:—His name, occupation, place of employment, abode, date and place of birth, and any other matters relevant to show whether or not he is within such class or sub-class, or whether or not he has reported for, or is excused or exempted from

military service; and the man shall, if required, produce his certificate or such evidence as may be in his possession, if he has any, showing that he has reported, or is not at the time liable to report; and it shall be the duty of any such man so questioned to answer truthfully, and to the best of his information, knowledge and belief, all questions so put to him.

15.—If any man so accosted and questioned do not answer, or does not truthfully answer, all questions put to him touching the matters aforesaid, or if the officer questioning him have reasonable grounds to believe that the answers are untruthful or evasive, he may detain the man and take him before a Justice of the Peace to be dealt with a according to law; provided that nothing in this regulation shall affect the application of Section 12 of the Military Service Act, 1918.

16.—It shall be the duty of every person to answer any questions which may be asked of or submitted to him orally or in writing by the registrar or by any military or police officer relating to the age, occupation, abode, address or domestic position of any man who may reasonably be supposed or be a member of any class or sub-class called out or to any facts which may be of use in determining whether such a man is entitled to exemption or enabling him to be found or identified, and any person who fails to answer any such questions shall be liable, on summary conviction, to a penalty not exceeding one hundred dollars nor less than twenty-five dollars.

### COLD-BLOODED MURDER.

LONDON, July 5. (Via Reuters' Agency)—Reuters Ltd., is authoritatively informed that the outrage on the Llandovery Castle, which is the fourth hospital ship torpedoed this year, was deliberate and premeditated following upon orders given the submarine commander by the superior German authority, which alleged the presence of eight flying officers. The allegation is foundationless and could easily have been refuted by the right of search. There is no doubt but that the submarine endeavored to slaughter all without regard of the crime, according to Count Luburg's famous pledge (apud veritas). It is clear that the German high command has a settled plan to destroy hospital ships as far as possible.

### HONORING THE BRAVE.

TORONTO, To-day. All the male pupils of high and public schools of Toronto will be instructed to salute all returned army and navy soldiers, whether in uniform or not, when meeting them in public places. Such was decided last night at a meeting of the Board of Education. The motion carried unanimously.

### AMERICAN ACTIVITY.

WASHINGTON, To-day. General Pershing reported today on American front patrol activity in Chateau Thierry region yesterday, and announced that American troops were still engaged with their Fourth Army offensive which resulted in the capture of Hamel. In the course of successful patrols in Picardy and Chateau Thierry region, we captured prisoners. In Picardy a machine gun was taken. Hostile planes, which approached our lines near Vaux, and the Vosges, were driven back by our fire. Our troops co-operated with the British in their attack made today.

### ARTILLERY FIGHTING.

PARIS (Official). To-day. There was some activity by the enemy in the artillery during the day. The firing was quite heavy south of the Aisne River, in the regions of Courcelette and Mont Gobert, west of Bussiere. Northwest of Chateau Thierry we captured a surprise attack and captured prisoners.

### THE WAR IN THE EAST.

Eastern Theatre.—Along the Dobruja front, and in the Monastir sector there was considerable activity during the day. Our artillery directed a destructive fire upon the enemy batteries in both these sectors. Two enemy machines were shot down by our aerial defence.

### TRANSPORT TORPEDOED.

WASHINGTON, To-day. The American army transport Caribou, home-bound after landing many thousand soldiers in France, was torpedoed and sunk in the western zone on Monday night. Six of the crew are missing, but all the other men with the ship's officers have been landed at a French port. No army was lost.
