Iron-ox Tablets Highly Commended by a Detroit Druggist.

780 Jesferson Ave., Detroit, May 13, 1902. For many years I suffered

from constipation in its worst form, and nothing which I took gave me any permanent relief.

When your Tablets first came to my notice, last summer, I determined to try them. The results have been most gratifying. I have taken many laxatives, but no other can compare with yours so far as my personal experience goes.

The tonic properties of your remedy are most valuable, both in connection with its laxative action when desired, and for those who need a tonic only.

I cannot too strongly recommend Iron-ox Tablets, which I never fail to bring to the notice of my customers when appropriate. From those who have used them I hear nothing but praise.

Russian Officer Tells of Carnage Wrought by the Mikado's Ships.

St. Petersburg, March 21. - A Russian officer commanding a battery on T. J. SULLIVAN, 180 Dundas Street, Electric Hill during a bombardment of Port Arthur, has written the following vivid account:

"It was a clear sunlit day, and there which had no terrors after the first was a gentle swell on the water. A shell had exploded.

little spot appeared through the haze on the far horizon, and then another and another, until those spots were guns halfway down the hill, which had exploded.

"Suddenly a white-faced gunner pointed to a battery of quick-firing guns halfway down the hill, which had hear placed there to prevent a Japan increased to fifteen. Nearer and nearer they came, and larger and larger they appeared, until within six miles off, there was a tiny puff of smoke, and was a battle orgy of bursting shells all in the battery wondered where the projectile was going to fall. projectile was going to fall.

ing the decks with spray. There was crushed. another puff and a projectile whistled overhead, crashing on the rock behind us. Then came a third. It was a moment of terrible suspense. There was a terrific explosion overhead. They had got our range exactly it was the had got our range exactly. It was the signal for us to open fire, and ten shore batteries and twelve warships joined in the reply.

"What followed is indescribable. The sea underneath where we stood fairly holled with the swigh and

fairly boiled with the swish and plunge of projectiles, and words of command were inaudible to the gunners. I tried vainly to shout my orders, while 150 guns were belching in a prolonged roar, and shells were bursting overhead with a hellish crash. The smoke and dust blinded us.
