FRENCH INTERFERE. The surrender of three Greek garrisons in Macedonia to a committee, the nature of which is not indicated clearly, is reported from Saloniki. Another dispatch says there has been fighting between Greek

regulars and volunteer forces which were organized to resist the Bulgarian invasion of Macedonia. French troops are reported to have interfered to prevent serious disturbances in the Saloniki region, where the existence of internal disorders if not of revolution is indicated.

THE NEW RULER. Crown Prince George of Greece, whose accession to the throne is reported, has been described as a man of liberal mind, in true sympathy with the aspirations of the Greek people. It has been assumed that if King Constantine's policy of non-interference in the war should lead to his disappearance from power the crown prince would be the man to whom the pro-Entente party would turn.

[Canadian Press.] Chicago, Ill., Sept. 1.-While railroad fficials of the country generally agreed today that passage by Congress of the proposed eight-hour day bill would avert he strike set by the four brotherhood of trainmen for next Monday, many were of the opinion that the railroads would decline to accept the law without a contest in the United States supreme

The plan today, as the result of conferences last night among presidents of a number of the leading roads was that no claim of unconstitutionality will be interposed, but should the measure be enacted, it will be studied by the railroad lawyers, and if they deem it advisable they will make a test case in the courts.
