LONDON CLUB'S START WESTERN "U" STAGES BIG MEET IS NEW DECISION FOR SCHOOL ATHLETES MAY 21

O. F. A. Cup Games

tablish Strength of L. and D. L. A.

Public Utilities have decided to Public Utilities have decided to enter the O. F. A. cup competitions, and have sent in their application. The Utilities are probably one of the best collections of footballers London has ever had, and in this affair they will be representing the London and district and a win for them, which isn't herond the for them, which isn't beyond the realm of possibilites at all, would establish the standard of soccer played in this end of the province.

Many who have seen the best the other associations can produce say the Londoners have more than an even chance of getting to the finals, and they'll have the L. and D solidly behind.

cess Last Year Ushered In Big Era For Western On- Clash Between Rovers and tario School Athletics. The Western University Athletic

Association has sent out announcements for the second annual track and field meet for the secondary schools of Western Ontario, which will take place in Queen's Park on Saturday, May 21. It will be remembered that the first meet held in London last 24th of May, when 22 schools sent in 282 boys, produced some of the best racing that had ever been seen in London. The added impetus given the sport throughout the schools by the Western Ontario relay team setting the world's record at Baltimore, and then Western Ontario defeating the pick of Baltimore here in London in March has made every school in the area determined to have representatives here this year, and whoever wins the two trophies this year will know that they have been through a big day's sport. It is particularly gratifying to the committee in charge to see the way in which the smaller schools developed during the winter and held the majority of places in the Baltimore trip and in the dual meet here in London, and the Western University Athletic Association do not think that they are over-optimistic when they say that within a short time all the students in all the schools in Western Ontario who are physically fit will be taking some part in play life during their school career. This is the ideal which the University Athletic Association had in view when they started this work, and the competitions such as that and the competitions, such as that of the 21st of May and the basket-ball tournament held this month, are merely the culmination of the individual efforts of the students in the various schools, for it must be remembered that each school has own little athletic meet in order that the best boys may be chosen to come to London,

New Classification.

It was hoped that instead of classifying the students along the basis of scholastic work, as was done last year, namely, the first two years in the lower school class and the other three years in the upper school class, that some new idea could be devised whereby the smaller boy who is more clever academically than his larger playfellow would be given a better op-portunity to compete, but while several solutions were offered, none seemed to fit the situation, so last year's classification was allowed to stand. At this year's meet it is the intention of the committee to take the age, weight and height of all heat and place winners, and from that recommend to the West-ern Ontario Secondary School Association a new policy for next year. Very enthusiastic reports are coming in from the various schools as to the speed that is being developed in training Windsor, Chatham, Woodstock, Brantford and London all maintain that Sarnia has absolutely no chance of taking the trophies home for the second time, but the boys from the Border Cities are not saying much, but they are constantly training.

A feature of this meet will be the public school relay race for the cup Rochester 123 000 101-8 13 2 school will have entry of a four-boy and Smith.

Even a telephoned postponement yes
