### That Dunlop "Spare"

### Gets Little Work

"Traction" Cord

"Clipper" Cord

Have you noticed the number of big cars with a Traction Cord spare which always looks new? It is new. Scores of car owners tell us that after equipping Dunlop Cords all around—including the spare—they have gone a whole season without ever needing to disturb that fifth tire. Hence its new appearance all the time. This is not an argument for abolishing the extra tire. Rather, it is proof that the "spare" is seldom called into action when the complete Tire equipment is Dunlop.

## The Servant of Industry

It is the function of a Motor Truck to serve Industry faithfully and well. The measure of a truck's value to you is the degree in which it is able to serve you.

GMC Trucks are worthy of your attention because they can offer you a better service, a longer service and a more dependable service than the usual standard of truck values would lead you to expect.

They offer you these features, which other trucks do not—features which place them "Seven Steps Ahead". Radius Rods which take all extra strain off the springs; Two-Range Transmission; Removable Cylinder-Walls; New, Removable, Valve-Lifter Assembly; Improved Cooling System; Pressure Lubrication; Instantaneous Governor.

Your money buys more in truck value in GMC than elsewhere, because it buys you greater service. Come in and let us go into the question more thoroughly.

### A history maker— and still the Leader!

The World's Largest Producers of Quality Automobiles

THE STUDEBAKER Light-Six—a history maker—the first fine six-cylinder car under 3,000 pounds at a four-cylinder price.

A car with followers, imitators and adapters by the score—but with no rival in quality, popularity or sales volume. It is still the Leader!

A car built to fulfill the ideal of producing the greatest automobile value in the \$1,500 field—the car which started the stampede from fours to sixes.

A car with a specially designed offset valve motor of remarkable quietness, economy, freedom from vibration—and with tenacious resourcefulness of power on the hills, the straightaway and the pickup!

A car comfortable, roomy, good-looking, very easy to handle on the road, in traffic or in parking—long-lived, low in first cost and especially low in up-keep costs. The market's one best bargain for the man who wants all the car he can get at about \$1,500.

A car that is an investment, not an expense, because it can be bought on very liberal terms, sold or traded in at a very high resale value on a market always ready and waiting for a used Light-Six Studebaker—its popularity and demand as a used car are the most convincing evidence of its goodness as an aut. noble.
