Another Grit Decapitated—The Grand Trunk's Assistance in Ontario to be Testified to.

The Governor-General Will Remain For His Official Term of Office.

The Revenue as Affected by the Sugar Duties—Departmental Changes Spoken Of.

From Our Own Correspondent.

OTTAWA, Ont., Nov. 21.—Mr. Trux, Grit member for East Bruce, is the latest victim of the election cuts, being unseated.

Judges Street and Falconbridge, in the South Ontario election case, to-day, decided that the evidence of the services rendered by the Grand Trunk Railway to the Liberal party was admissible.

Hon. Mr. Foster denied the report that the Government had almost completed arrangements with the Furness Company for a fast steamship line.

Great satisfaction is expressed at the offer of the Imperial authorities to aid the Canadian military officers to obtain military instruction, when visiting the mother country. The scheme was brought about by the medium of General Herbert.

In official circles it is stated there is no truth in the report that Lord Stanley, of Preston, will leave Canada next year.

A rumor is current to-day that Mr. Bradley, secretary of the Department of Railways, has been dismissed, but enquiry elicits the information that the Government has not taken action in his case.

Hon. Mr. Powell says there is no truth in the story that Mr. Schrieber will leave the position of manager of Government Railways and be succeeded by Mr. Pottinger.

Most of the mounted police patrols have been called in for the winter.

The decrease in the customs duty collected this year compared with four months of last year is \$1,864,000. As showing, however, the benefit to the Canadian treasury, who have received the abolition of the sugar duties, the returns indicate that \$2,743,000 were collected during the first four months of last year, and \$61,000 only from this source this year.

SYMPATHY FOR GREER.

Vancouver's Clergymen Take a Prominent Part in Last Night's Mass Meeting.

A New Trial Urged—Money and Other Aid To Be Forthcoming.

VANCOUVER, B. C., Nov. 21.—(Special.)—The public meeting held, to-night, to discuss the Greer case, was largely attended, even standing room, being fully occupied.

W. J. Teylsh was in the chair. The speakers were Revs. P. R. Maitland, R. P. Hobson, J. W. McLeod, Dr. McGuigan, Messrs. Wm. McCrae, ex-M. P., Wm. Shannon and Jos. Hall.

A resolution, calling for a new trial, was moved by Rev. Mr. Maitland and Dr. McGuigan and carried without a dissentient voice.

A second resolution, expressing sympathy with Mr. Greer and family, and calling for subscriptions to help pay the costs of a new trial and other legal expenses, was moved by Mr. McCrae, and seconded by Rev. Mr. McLeod, and passed, as was also a resolution appointing A. C. L. Brown, Lewis Carter and Dr. McGuigan, a committee to collect subscriptions.

That the judge's strictures were unaltered, and that the jury were wrong in altering their first verdict in more than form, were among the sentiments expressed.

Mr. Greer, who had been moved by a constable in Chilliwack long ago, made a good officer, and was a general favorite.

The meeting was harmonious throughout. A collection of \$113.55 was taken up before the meeting closed.

CABLE LETTER

PEREMPTORY DEMAND ON THE CHINESE.

LONDON, Nov. 21.—It is learned this evening, upon the authority of an attaché of the British Foreign Office, that the position of affairs in China, in regard to the outrages on Europeans and the negligence of the Chinese authorities to take efficient measures for the punishment of those concerned in them, will shortly have a new and startling development. It will be remembered that in August a joint new note, signed by every diplomatic representative in Peking, was addressed to the Chinese Government. It demanded the publication of the imperial decree, denouncing the outrages and demanding the punishment of those concerned. Not one of these demands has been fulfilled, and the time given for the purpose is coming rapidly to an end.

The Chinese Government has now, it is said, been made acquainted with the decision, and has been informed that, at the termination of the period of grace, the city of Shanghai and the river from it down to Woo Sung, including the latter town, will be occupied by foreign fleets until satisfaction is obtained.

The object of the movement will be the seizure of the customs, and all expenses of the measure will be defrayed out of the money thus obtained. Next to the occupation of Peking, which would be a great deal, nothing more striking and effective than the occupation of Shanghai could be accomplished. The customs revenues of the past year were nearly 6,000,000 taels, or, roughly, \$1,500,000.

WORKING A TURNOUT POLITICIAN.

A new way of dealing with dissentient Liberal M. P.'s, practiced by a gentleman in Somersetshire: He attends the meetings of Mr. Hobbhouse, dissentient, and having settled in a prominent place proceeds to take of his coat, turns the sleeve inside out, with a complete display of white lining in front of the unhappy member, invests himself in this turned coat, and begins to deliberate and well-timed fire of questions as to the reversal of Mr. Hobbhouse's policy. There is nothing positively disorderly in this method, but his strange array stands out conspicuously in the assembly to remind Mr. Hobbhouse's

constituents that he is accused of being a turncoat. He is now and then informed that in one part of his constituency he pledged himself to do this or that to Mr. Gladstone. Mr. Hobbhouse does not admit this.

POSITION OF PARTIES IN BRAZIL.

A dispatch from Monte Video says that affairs are at a standstill between Da Fonseca and the Junta of Rio Grande do Sul. This is not because either party is afraid of fight, but because they cannot get at each other. The Junta's naval force hardly deserves the name of a fleet, and is chiefly composed of small steamers that were used by the Government for customs-house purposes. There is a gunboat or two, but nothing that could cope in open waters with the powerful squadron at the command of Fonseca.

CAPTAIN O'SHEA EXPLAINS.

Captain O'Shea denies that he has any beneficiary interest in the will of the late Hon. Mrs. Evelyn Wood, aunt of his divorced wife, the only way in which he could be would be in the event of his surviving her and the courts making a decision in his favor.

THE NEW CARDINALS' HATS.

Advices from Rome state that the coming Papal Consistory is looked forward to, with great interest. The various legations to the Holy See, are using every influence at their command to get one or more of the Cardinals named for their respective nationalities. The new primate of Hungary is named for a probable cardinal, and it is thought that at least one hat will be bestowed in France and one in each of the Kingdoms of England were rehearsed.

The meeting was held in the shadow of the famous Celtic memorial cross. Afterward the graves of the many prominent leaders of the cause were visited, and the graves were decorated. The procession then reformed, and on its return march stopped at Parnell's tomb, which was heaped with floral tributes.

THE FRENCH MINERS' STRIKE.

PARIS, Nov. 22.—The miners met, to-day, to consider the proposition of the government that three mining engineers, nominated by the state, should arbitrate upon the issues between the striking miners and their employers. The meeting was held at Lens, and in addition to the 132 delegates, an immense number of miners and their families were present. The meeting was virtually unanimous as to the soundness of the principle of arbitration, and that the issues of the strike should be submitted to arbitrators, but they insisted on nominating the arbitrators themselves, and those five miners for that duty. It is thought that there is very slight prospect of the mine owners agreeing to this form of arbitration. One of them stated, to-day, that it was altogether one-sided.
