to one of the heroes of the Manabharata; the Koh-I-Noor, after an eventful history, came in 1849, with the Punjaub, into the possession of the Queen. It is said to have once weighed 739% carats and to have fallen to 286 by unskilful cutting, but in 1851, when shown at the first great exhibition, it weighed only 186 1-16. Subsequently it was recut into rose form and now weighs 106 1-16. One theory to account for the tradition of its former magnitude, is that the actual Koh-I-Noor, the Orloff diamond and a third obtained by Abbas Mirza at the storming of Coocha, in Khorassan, in 1832, are fragments of the original Koh-I-Noor—the true Mountain of Light.
