W. A. McKinnon, of Grimsby has been appointed to the agricultural commissioner's branch to look after the fruit business of the department in view of the fruit mark act going into effect next Monday.

One of the principal objects of the act is to eliminate fraud in the marketing of such fruit as apples, peaches, pears, plums, cherries, etc., and to admit of ready inspection without opening.

It is hoped that one effect of the act will be to encourage grading of fruit strictly according to the standard of quality and to inspire confidence in the public, leading them to purchase freely the finest quality of fruit sold under reliable brands.

In the matter of packing the policy desired by growers and dealers alike has been: "Let the face of the package be an index of the bulk." Section 7 of the act embodies this policy.

DISCUSS INDEMNITY. Foreign Ministers Talk Over Minor Points.

Pekin, June 27.—The foreign ministers at today's meeting discussed only minor reports of the incident at the fishing grounds.

The British minister, Sir Ernest Satow, refuses to agree to the ten per cent. increase in the tariff in the event that China finds it necessary to meet her payments.

The Russian minister, M. De Giers, has not yet agreed that the interest on the indemnity is to be four per cent. The United States representative, Mr. Rockhill, thinks there should be little further delay.

When these points are settled the work of the ministers will be practically completed.

PROVINCIAL FISHERIES. Dominion and Local Governments Working in Perfect Harmony.

Recent correspondence between the Federal and provincial authorities has resulted in the establishment of mutual arrangements under which the fishing industries are being carried on to the satisfaction of all concerned.

The provincial government did not deem it advisable to assert its jurisdiction at this particular juncture as any change in the officials of the regulations might seriously complicate the situation; it therefore willingly acquiesced in the Dominion's proposal.

Mr. Sward, the Dominion inspector of fisheries, had a conference with the provincial executive regarding inland fisheries, over which the provincial authority is undisputed, and the results are in every way satisfactory.

YALE WINS. University Eight Beats Harvard After a Hard Race.

New London, Conn., June 27.—Yale won a university eight-oar race. It was 6:25 in the morning when the Yale crew started for the whistle on the yacht Nushki to be blown as a signal for the rival eights to prepare.

The start was a close one, but Harvard possibly having a slight advantage. For three lengths it was stroke for stroke, but then Yale took the lead.

It was a start almost on even terms, Harvard possibly having a slight advantage. For three lengths it was stroke for stroke, but then Yale took the lead.

At the mile it began to look like Harvard, at this point Yale's spirit began to show itself and a little more "oomph" appeared in the New Haven crew.

The crews hardly varied from 30 to 31. When the two mile flag was past Yale led for the first time in the race, but in the next half mile Harvard once more wrestled the lead away from Yale, and at the two and a half mile Harvard led by just two-fifths of a second.

The shells entered the finishing mile with beautiful water conditions. It was not until the three and a half mile flag were within hailing distance that the Yale coxswain called his men "oomph" and up crept the Yale shell. Harvard tried to respond and the men answered heroically. But Yale took along in a style that was maddening, and won. The official time was, Yale, 23:37; Harvard, 23:45.
