clearances and moderate receipts with higher English and French markets, the disposition was to realize and became more-and more apparent as the session advanced. Markets seem to be in a sisposition where it requires constant injection of buil news to sustain it against the steady feeing by holders of long stuff. Government report due to-morrow is most likely to represent grow-tag crop in as about as favorable condition as possible, and effect of this must be depressing. Corn was firmer early on the wet weather, but after the slight spurt at the opening gradually lost ground and sagged back in sympathy with wheat. The deal lacks vim and we consider that prices have been inflated to au unreasonable extent. Provisions were dull and easier. Lard was sold freely by packers and toreign houses. Hog supply was liberal. We think tendency must be lower until enforced selling produces a healthier market.

luctuations in New York stock market as ved by John J. Dixon & Co. were as follows: DESCRIPTION. St. Paul..... Union Pacific.... Western Union... Drunmond & Brown received the following to-day over their private wire from W. S. Lawson & Co. of New York: The market was in full swing again to-day with the Granger stocks well to the front, the trading in them being so large as 'o recall old time bull market. A prominent operator asserts that "the Grangers will set the country affire" by the way they will go up, and he says Burlington will go to 115, Rock Island to par and St. Paul to 90. There was evidently a good deal of realizing, yet the buying was first-rate, and when the market fell off it became dull, which is a bull sign.
