#### Balanced Value

Value, as represented in Gray-Dort Motor Cars, is a union of good qualities. Strength that means faithful service, free

from trouble, yet sacrificing nothing of the lightness so essential to economy. Beauty unquestionable, that yet allows for every essential of good engineering. Comfort, too, both in riding

and driving. And then a price kept surprisingly low by factory efficiency and big production.

You need in your car ALL the qualities the Gray-Dort has. And probably you need nothing more. Certainly you can get nothing more without paying very much more The touring car is \$1245; the Gray-Dort Special—the car with added refinements and extra equipment, is \$135 extra; there are also a coupe, and a sedan. All prices f.o.b. Chatham and are subject to change without notice.
