WHY

BAND SAWS BREAK

SIXTEEN

REASONS,

AND HOW TO

AVOID THEM

Being instructions to filers on the care of large band saw blades used in the manufacture of lumber.

A book filled with valuable information on the care of band saws. Giving the reasons for breaking; analyzing each reason; giving instructions to dispense with the causes as laid down in each reason; and full details on filing and brazing. The proper styles of hammers to use are illustrated and described, and views of blades showing the blows of the different styles of hammers form an important part of the illustrations. Improper and unequal tension are then treated, and the manner of properly setting irregular teeth is described. In connection with the treatise is a history of the invention, manufacture and use of the saw from its origin to the present time. The work in whole makes an accumulation of information such as has never before been published.

The book is printed on fine paper, good clear type, and is handsomely and substantially bound in cloth. It will be sent to any address on receipt of the price, ONE DOLLAR.

Above all Competitors

COAL is money, why not save it by
using the . . .

T. J. C. INJECTOR

the most economical boiler feeder
in the world.

20 per cent.

saved in coal over any other make.
Absolutely automatic. Easily at-
tached. Applicable to all kinds of
boilers.

NOT EXPENSIVE

Will outwear any other make and is
simple in construction. It is easy to
operate, and is the most powerful
feeder in the world.

The T. J. C. Injector

is the best because you cannot pos-
sibly go wrong with it. With high
or low steam the result is equally
satisfactory. It combines the utmost
simplicity with perfect efficiency, and
any boy can operate it.
