SURGICAL TREATMENT OF TUMORS OF THE NECK. By Thomas H. Manley, M.D., Visiting Surgeon to the Harlem Hospital, New York. 1894. Reprinted from the Medical Brief, St. Louis, Mo.

## PUBLISHERS DEPARTMENT.

THE LADIES' HOME JOURNAL  
PHILADELPHIA.

### A BOOK FOR YOUNG MEN.

EDWARD BOK, the editor of *The Ladies' Home Journal*, has written a book for young men called "Successward: A Young Man's Book for Young Men," which the Revells will publish in a fortnight. The book aims to cover all the important phases of a young man's life: his business life, social life, his amusements, religious life, dress, his attitude toward women, and the question of his marriage. This is Mr. Bok's first book.

### A HORSE-SHOW STORY.

MRS. BURTON HARRISON has written a new novelette, dealing in the main with the "fashionables" of New York at the Horse Show, which *The Ladies' Home Journal* is about to begin. Mr. W. T. Smedley has illustrated the story.

### ANÆMIC PATIENTS WHO HAVE MALARIAL CACHEXIA.

DR. T. D. CROTHERS, editor of *The Quarterly Journal of Inebriety*, published under the auspices of The American Association for the Study and Cure of Inebriates, and who is an authority on neurosis, writes in his last number as follows: Antikamnia and Quinine are put up in tablet form, each tablet containing two and one-half grains of antikamnia and two and one-half grains of quinine, and is the most satisfactory mode of exhibition. This combination is especially valuable in headache (hem'cranial), and the neuralgias occurring in anæmic patients who have malarial cachexia, and in a large number of affections more or less dependent upon this cachectic condition.

The four weekly issues of *Littell's Living Age* for September are replete with the choicest gleanings of the British reviews and magazines. These issues contain twenty-seven complete papers, many of them of great value and intense present interest.

Among the more valuable essays and reviews may be particularly mentioned, "Norway and Sweden," which is really a "double star." The one by J. E. Sars, Professor of History in the University of Christiania, presents "The Case of Norwegian Liberalism"; the second, by Carl Siewers, reveals "A King's Scheme of Scandinavian Unification." "The Problems of the Far East," the leading article in No. 2670, is an able review of recent works by such writers as Hon. Geo. P. Curzon, M.P., Henry Norman, Chester Holcombe and others, on the China and Japan question. Biography is represented by an exceedingly good article on "Huxley" by P. Chalmers Mitchell, and another on "Mrs. Gaskell" by Mat Hompes. "The Spectroscope in recent Chemistry" by R. A. Gregory, and "Stars and Molecules" by Rev. Edmund Ledger, will prove of great interest to the general as well as the scientific reader. "A Visit to Bonifacio" by J. N. Usher; "Antarctic Explorations," "In the New Zealand Alps," "Poetic Pride," "Latter Day Pagans," and "The Heavy Burden of Empire" are the titles of other valuable papers. In fiction each number contains a complete story, and of poetry a full page.
