

students can be interested in their work as they should be. Without this interest, enthusiasm is impossible, nor can many of the students so taught, pass their examinations creditably, or become as efficient physicians and surgeons, as the public have a right to expect all Canadian medical graduates to be. These students who pass well, under disadvantages so great, deserve the utmost credit.

One pleasant feature of this banquet was, the presence of graduates of Queen's, Victoria, Toronto, and McGill Universities, who heartily expressed their pleasure at being present to do honour to one who had done so much for medical education in Canada as Dean Geikie has done, during so many years of his busy life.

The address of the chairman, Dr. Hislop, was brief, but represented the feelings of everyone present. It was as follows:—"I feel it to be indeed a great honour to preside at a gathering as large as this, of distinguished professional men, and all the more, to preside at a banquet given in honour of so eminent a guest. It has given me great pleasure to see so hearty a response of the Canadian medical graduates of Detroit and Windsor to meet the grand old Dean, who has been justly termed, 'The Dean of the Medical Profession of Ontario,' and who in recognition of his long and faithful services to medical education in Ontario, was honored last year, by Queen's University conferring upon him the Degree of LL.D. Dr. Geikie, (he added) it affords me great pleasure indeed to have you present here at this banquet of Canadian graduates as our deservedly honored guest."

A special feature of the banquet, was, the presence of Mr. Harold Jarvis, the well known tenor, whose splendid singing was highly appreciated.

Detroit, October, 1908.
