No. 977.

HISTOGENETIC SYSTEM OF MEDICINE

A CONSUMPTIVE SAVED

All diseases successfully treated by the new system of pure and tasteless medicine. So-called incurable cases preferred.

THEORY—Rebuilding the diseased cells and tissues of the body with the same ferments, organic bodies and so on, which are normally prepared in the body by the glands.

And there is no longer a doubt that Dr. J. Eugene Jordan's Histogenetic Medicines will **positively cure tuberculosis** of the lungs, and consumptive bronchitis. This was a genuine case of consumption, as both physicians and his neighbors know. The lung microbe could not be destroyed without destroying the patient; but, possibly the weak cells could be fed and the dead tissue cast off. It was the only hope. It was tried. Did it succeed? The above cut made from a photograph of Mr. Williams, since recovery, and the following letter, answer the question. It has a hopeful and victorious ring in it. Listen:

Three years ago I had intermittent fever, which shook my constitution, especially lungs, liver, and bronchial tubes. A year later I took la grippe followed by cough, expectoration, night sweats, pain in my lungs, loss of flesh, etc. I knew consumption would soon carry me off. All treatment failed. I became discouraged. I got worse and worse. I heard at last that Histogenetic Medicines cured Consumption and Bronchitis. I consulted Dr. Rear in the Gerrard Street Arcade, Toronto, who prescribed those medicines. I commenced at once to gain, but, unfortunately, took another severe cold, but persevered, and was soon better than usual. I rapidly improved till cough, pain, sweats, and expectorations ceased. I have gained more than I had lost in weight; in fact, I weigh more than I have for years. I wish to tender the hearty thanks of myself and now happy wife to the Histogenetic Medicine Association for the deep interest they took in my case, which has resulted, through God's blessing, in my life being saved when all else had failed.

Yours truly and gratefully, T. WILLIAMS, 100 Robert Street, Toronto.

Send for free book of 200 pages, explaining the system. Your case is in it. It may lead to saving your life. Remember we treat all chronic diseases of men and children. All different kinds of tissue-builders for all kinds of diseases. Not a one kind cure-all. No fees. Free consultation. Free prescriptions. Just the actual cost of the medicines to pay. Office hours, 9 a.m. to 8 p.m. Patients cured at their homes through question sheets. Mention GRIP when writing. Address,

HISTOGENETIC MEDICINE ASSOCIATION, New Arcade, Yonge and Gerrard Sts.
