The Rapids of Lachine,

Which render the approach to Montreal so romantic, are worth a long visit to behold. They are really the only dangerous rapids in the river. They are caused by bolderous rocks, and it requires great skill to pilot the boats through them. They have engaged an experienced Indian pilot. Like those rocks in the St. Lawrence are the obstructions which human appetite places in the current of men's lives. Our nobes and pains, like the foamy waters of our great river, are traceable to these obstructions. Remove them and life will roll along smoothly and pleasantly. This can be done readily by the use of DR. HERRICK'S SUGAR COATED PILLS, the great medicine of this century. They remove obstacles from the system naturally and kindly. So thousands attest. Every druggist in the Dominion sells them.

Probably no one article of diet is so generally adulterated as is cocoa. This article in its pure state, scientifically treated, is recommended by the highest medical authority as the most nourishing and strengthening beverage, and is strongly recommended to all as an article that will tone and stimulate the most delicate stomach. LAND TROUBLES IN IRELAND. DUBLIN, January 7 .- A despatch from Balligary, in Tipperary County, says that in a land dispute in that parish, an affray occurred in which two men named Ryan were attacked and killed by a man named Bruton.

A despatch from Galway states that a crowd of about 400 men, so disguised as not to be recognizable, attacked two brothers by the name of Walsh, who had reuted a farm in that parish from which the previous tenants had been evicted by a land agent. The Walshes were quite seriously beaten in the affray, but not fatally. The assailants captured the brothers and only released them upon their promising immediately to surrender the farm in dispute. Excitement ran high in the neighborhood, but up to the time of sending the despatch there had been no arrests and no official interference with the settlement made by the anti-renters.
