### PATTI KISSED BY A GOVERNOR.

Sr. Louis, Feb. 28 .- Patti has been telling tales out of enbool, and Governor Criticaden, of Missouri, is the hero of her story. She says: "I had just finished singing Home, Sweet Home, last Thursday evening, when a nice-looking old gentleman, who intro-duced himself as Governor Unitenden, began congratulating me, and all of a sudden he leaned down, put his arms around me, drew me up to him and kissed me, He said: 'Mme. Patt', I may never see you again, and I; cannot help it,' and before I knew it he was kissing me. It wouldn't do to have everybody washing my face, you know; but when an old gentleman, and a nlee old gentleman, too, and a Governor of a great State, kisses me so quickly that one has not time to see and no time at all to hist not time to see and no time at all to object, what can one do?"

### THE WORLD'S BENEFACTOR.

Who, that has had opportunities of reading,

but has heard of the philanthropist, Howard, the greatest part of whose life was spent in visiting the prisons of Europe, and adminis-tering relief to countless numbers of suffering inmates, and whose name will go down to remotest time, crowned with the honors which millions yet unborn will bestow upon it? In the same category we may place the name of Holloway. The possessor of a large fortune, which would allow him to traverse the world in search of pleasure, he chooses, instead, to devote his leisure and his talents to the housest to the benefit of his fellow creatures by diepensing among them the most remarkable remedies, which he himself discovered. To these researches Holloway was first incited by the enormous amount of suffering from various diseases which he everywhere saw around. Success has met him at every step, -yet no greater than he anticipated, and has proved his well-carned reward. Great, indeed, has become the popularity of his medines, even in the remotest corners of the earth, and their marvellous virtues have been extolled in almost every language from pole to pole. We have seem innumerable testimonials from persons who have used these remedles, in which their wonderful powers are extelled in the highest degree. In every case of incipient disease, recourse to Holloway's never-failing remedies will save months of painful illness, if not life itself. We do not overrate the man, nor his medicines; but what we are confident of, we are willing to bear testimony in its favor; and as far as our absolute knowledge extends, covering a space of years, we feel competent to speak upon the subject in the warmest terms. Therefore, it is our earnest wish that not a family in the land should be ignorant of his remedies, and that they should always be kept on hand to use in cases of sudden illness, as they will operate as well as preventatives as curatives; while there is no possibility of danger to the system arising from their use .- Notting At-

### AUSTRALASIAN NEWS.

San Francisco, Feb. 26 .- Advices from Auckland say that a number of laborers who secently resurned to the Island of Nanoutl from Honolulu assaulted ten young girls. Two old men who expostulated were shot and a fight between the returned laborers and natives ensued in which twenty of the latter were killed and many wounded. The king chartered a vessel and went to Nanouti. Two of his messengers were shot white going ashere. A battle was then fought and several killed on both sides. The king's party took a number of prisoners.

How many persons get up in the morning without an appetite, having a bitter taste in the mouth and feeling weak and debilitated. All these need Carter's Liver Bitters.

Sr. PETERSBURG, Feb. 28 .- The Czar had decided to convene the Superior Council to consider the Socialist question and inquire whether there really exists a powerful Nihile ist party; if so, what its wants are and how they may be satisfied or be crushed as the demands of the country may require. The council will be composed of representatives of the ruling classes and all heads of the administrative departments.

# NO MARKS.

Mr. T. M. Casad, editor of the Corydon, Iowa, Times, writes that his little girl burned her foot severely on a stove. One application of St. Jacobs Oil, the great pain-reliever, cured it completely, leaving no marks. By two applications of St. Jacobs Oll he cured himself of a torturing pain in the side.

# THE MADAGASCAR WAR.

LONDON, Feb. 26-A Mauritius despatch says the Hovas have succeeded in secretly landing in Madagascar a number of Krupp cannon and other munitions of war and have gone to protect Tantanarivo. An English colonel named Willoughby has obtained the leading command of the Malagassy army and a number of other Englishmen hold minor commands. The arsenals are busy in the interior of the island and the Hovas hope soon to be able to make an attack upon Tamatave now held by the French, who are suffering much from fever.

FOOT AND MOUTH DISEASE.

LONDON, Feb. 26-An examination of the cargo of cattle by the steamer Ontario, which arrived at Liverpool from Portland on Friday last with a number of cattle and sheep suffering from foot-and-mouth disease, has resulted in an order being issued prohibiting the landing of cattle from Portland until March 12th, as a precautionary measure in order to give the inspectors time to find out whether the disease which appeared among the cattle on the steamer was not attributable to a cargo of Esteford cattle which the steamer had lately taken to Portland.
