

Fireproof Partitions in the "Men's Own," Winnipeg, Man.
JOHN D. ATCHISON, Architect

HERRINGBONE METAL LATH AND PERFECTION STUDS

WERE USED IN THESE PARTITIONS

The Studs were spaced Sixteen inches on centers. Herringbone Lath is intended to be used that way. Any Herringbone Agent can put you in touch with Contractors who will erect such Partitions and do it right.

The Price will be right, too ; they cost far less than tile

CLARENCE W. NOBLE - 117 Home Life Bldg., Toronto, Ont.
