

Protestants are impatient of the inconsistencies of Anglicanism, and say frankly to it: "Be one thing or another. If you now feel the necessity of orders and sacraments, go home to Rome. Like the Prodigal Son, and get your heart's content of them. But stop trying to be Catholic and Protestant in one breath; and above all things stop patronizing us, who are, at least, consistent and persevering in our Protestantism." But Catholics, equally alive to Anglican inconsistency, look more gently upon it, for it is steadily forcing hundreds of earnest souls into the True Church.—Boston Pilot.

Those who repudiate the miracles of God are all the more ready to gaze in open-mouthed credulity at the paltry deceptions of Satan. Spiritism, Faith-healing, Mormonism, "Christian Science," Koreslanity, Oahspeim; these are but a few of the superstitions which flourish like weeds in these days of pretended enlightenment; and the name is legion of the unclassified superstitions, many of them connected with the practice of sorcery in its most outrageous forms, which are prevalent in the land. One of the most recent freaks of the self-styled Theosophists was the announcement that the spirit of W. Q. Judge, their lately deceased leader in the United States was to be re-incarnated in the body of a child, the birth of which was soon expected. This has disgusted some of the saner votaries of the sect, but it is a very natural outgrowth of its claim to be governed by a company of Buddhist sages in Tibet. The Tibetan Buddhists are subject to lama or monks, whose superiors-general are supposed to be incarnations of one same personality—the soul of each passing at death to the body of a newly-born infant who becomes his successor. Europeans have laughed at this for centuries as one of the greatest absurdities for which the sanction of religion was ever claimed; but nothing is too absurd to be believed by persons who are so unreasonable as to reject the true religion and expect to find consolation and light from the inventions of men.—Church Progress.

Ste Rose du Lac.

Grain cutting has commenced in this neighborhood though not very largely yet, but crops and gardens are looking well. Hay is good and abundant and every one is busy getting it in with due expedition.

The last ten days were very thundery; we had a good many showers which hindered the hay-making a little; however, the fine weather seems to have returned, and it is to be hoped that it will remain for some time, particularly that we shall not have any early frosts.

There is a French gentleman, a Mr. Bayess, who has a farm in this neighborhood, and who although he has not taken his degree, has studied medicine and is an excellent doctor. He has been instrumental in saving life by his advice in very many cases in this neighborhood, having particularly distinguished himself in cases of diphtheria. Many of the parents around may thank Mr. Bayess that their children are not laid to their last long rest. As this gentleman has no qualification recognized by the Canadian authorities, he is not able to demand payment for his services and consequently he loses a great deal of valuable time from his own work, for this reason a petition is being signed to present to the local government by which he shall be empowered to exact payment for his services, especially for his medicines which give him a good deal of expense.

Many of the men are going to work at the threshing and on the new line, and about the time of their return the bazaar will be held. There will be two candidates, Miss St. Germain and Miss Tucker. If any of your readers are desirous of seeing the country up here and would like a little pleasure at the same time, they should time their visit with the bazaar. They would be most cordially welcomed. If any generously disposed person would give us a little help it would be gratefully accepted by the secretary of the bazaar, Ste Rose du Lac, Man. I suppose I need hardly add that even the smallest contributions would be acceptable either in money or goods. The object of the bazaar, which is to take place in the early part of November, is to raise funds to build a new church which is much needed, the Church and school being one at present. School reopens tomorrow, and if the children spoken of appear there will be an increase on last year and then the number registered was over sixty.

Father Lecoq was in Winnipeg last week, he arrived home on Saturday evening and to-day we have the celebration of the Feast of the Assumption.

Ripans Tabules: one gives relief. Ripans Tabules: cure torpid liver.

WHEN OTHERS FAIL.

DR. WILLIAMS' PINK PILLS RESTORE HEALTH AND STRENGTH.

A Well Known Young Lady in Napanee Gives Her Experience—So Weak That She Could Not Go Up Stairs Without Resting—Her Friends Thought She Was in Consumption—Now the Picture of Health and Strength.

From the Beaver, Napanee, Ont.

Among the young ladies of Napanee there is none better known or more highly esteemed than Miss Mary L. Byrnes. Indeed her acquaintance and popularity covered a more extensive field, as she is a travelling saleslady for the Robinson Corset Co., and has many customers on her route which extend from Oshawa to Ottawa. How this young lady happened to be the subject of this article is due to the fact that she has recently undergone a most remarkable change through the use of these wonderful little messengers of health, Dr. Williams' Pink Pills. When the reporter of the Beaver called to make enquiry into her cure, he was met at the door by the young lady herself, whose rosy cheeks and healthy appearance gave no indication that she had undergone a prolonged illness. The reporter

mentioned his mission and found Miss Byrnes quite willing to tell the particulars of what she termed "an escape from death." In reply to the query "what have Dr. Williams' Pink Pills done for you?" she replied, "why, they have done wonders. I feel like a new woman. For eight years I was weak and miserable, and at times I could not walk. I was greatly troubled with indigestion, and frequently could not keep anything on my stomach, not even a glass of milk. I had dizzy spells, severe headaches and my complexion was of a yellowish hue. My kidneys also troubled me, and in fact I was all aches and pains. In going up a flight of stairs I had either to be assisted up, or would have to rest several times before I got to the top. At times my hands and feet would have no more warmth in them than lumps of ice. On one occasion while stopping at an hotel in Kingston, after waiting on a number of my customers, I fell down in a faint. The landlady found me in this condition and sent for a doctor, who, after bringing me back to consciousness, gave me medicine to take. He told me that my system was so badly run down that it was imperative that I should have absolute rest. His medicine had no beneficial effect that I could see, and I tried a number of other doctors with no better results. I became so low that I cared for neither work nor pleasure, and my friends thought I had gone into consumption. It was at this juncture that I determined to give Dr. Williams' Pink Pills a trial, and my appearance to-day will show you what a wonderful change they have wrought in me. I continued taking the Pink Pills for three months, and before discontinuing them every ache and pain had disappeared. I cannot speak too highly of this wonderful medicine, and I am eager to let the fact be known for the benefit of other sufferers."

Mrs. Byrnes was present during the interview and strongly endorsed what her daughter said, adding that she believed they had saved her life. The experience of years has proved that there is absolutely no disease due to a vitiated condition of the blood or shattered nerves, that Dr. Williams' Pink Pills will not promptly cure, and those who are suffering from such troubles would avoid much misery and save money by promptly resorting to this treatment. Get the genuine Pink Pills every time and do not be persuaded to take an imitation or some other remedy from a dealer, which, for the sake of extra profit to himself, he may say is "just as good." Dr. Williams' Pink Pills cure when other medicines fail.
