

3. Both sides are prepared to consider specific proposals for cooperation which either side might wish to advance in the fields of oceanography, environment and aquatic ecosystems. Both sides noted with satisfaction the cooperation which already exists within the umbrella of ICNAF/NAFO in the Flemish Cap Experiment.

4. Both sides will encourage and facilitate the participation of scientists and specialists from both countries at international conferences and symposia which will take place either in Canada or in the USSR.

5. Both sides agreed to encourage and facilitate visits by scientific (including professional, technological and administrative) delegations and individuals as well as the exchange of scientific information on the basis of reciprocity.

II EXCHANGES IN THE FIELD OF PUBLIC HEALTH, MEDICAL CARE DELIVERY AND MEDICAL SCIENCES

Both sides agreed:

1. To continue working towards a memorandum on cooperation in the fields of public health, medical care delivery systems and medical science.
2. To encourage and facilitate exchanges of specialists and scientists in the fields of public health, medical care delivery systems and medical sciences.
