MONTREAL.

#3, Sir Arthur W. Currie, April 13, 1927.

spite of that I can see plainly that this Memorial College is almost a revolutionary thing. I am glad to state that my former countrymen are wholly British, quite pugnaciously so. I believe they make good Canadians and I know that the love of mammon for itself only has not yet completely permeated their colonial souls.

Should you at any time visit Newfoundland, I am sure, Sir, that the welcome you would receive, no matter under what auspices you went, would be highly agreeable.

I have the honor to be, Sir,

Yours very respectfully,

William H. Hatcher
