Official announcement that the yield of wheat in Australia would be 10,-000,000 bushels short of home requirement from the start, as that country as a rule has a handsome surplus available for export. Estimates were also at hand that France would require 55,000,000 bushels and Holland 25,000,000 bushels. Admissions from Liverpool that offerings from Argentina were proving scanty counted likewise in favor of the bulls. Besides, receipts at domestic primary points showed a notable falling off.

Need Shipping Room.

Difficulties in obtaining a sufficient number of vessels for immediate salling tended to cause something of a reaction in the wheat market during the last part of the day. December delivery exhibited the effect most plainly. Late quotations showed the influence, too, of predictions that rather liberal receipts would continue to be the rule in the Northwest.

Shutting off of sales from producters and some increase in the export and domestic demand lifted the price of corn. Adverse weather cut a good deal of figure, and so, too, did reports that stocks at all points east were light.

Do Not Buy Spring Wheat. Ganadian Press Despatch.

MONTREAL, Dec. 2.—The foreign enquiry for Manitoba spring wheat was fairly good today, and cables were stronger in some cases at an advance of 1s 6d to 1s 9d per quarter. But at even these higher prices, exporters stated that they were still 1s out of line and in consequence no business was done. There was no change in the condition of the local market for coarse grain, for which there is a steady demand for car lots. In flour the feeling is firm, but the market is quieter than it has been of late, the demand having fallen off from all sources. The trade in mill feed continues active and prices are very firm.

The butter market is quiet and easier at a decline of one-half cent per pound. Cheese firm, but business is quiet. The stock on spot is only 35,000 boxes, which is the smallest for many years past at the close of navigation.

easier at a decline of 2½c per bag.

SATISFACTORY SEASON. DULUTH. Minn., Dec. 2.—The grain shipping season from the American head of the lakes has been a most satisfactory one. In spite of the smaller wheat harvest over the northwest this year, according to figures given out today, domestic receipts of grain here from August 1 to November 30 aggregated 67.284. last year. Arrivals of bonded grain here fell off sharply, owing to the partial crop failure over a large area of the Canadian northwest. They amounted to 1,155.015 bushels, against 5,028,370 bushels during the same period last season.

Canadian Press Despatch.

MONTREAL, Dec. 2.—At the C.P.R. it is stock market there was a good demand from butchers and packers for cattle today and an active trade was done at eteady prices. There were no good to choose steems on the market, and the bulk of trade was done in stock at \$6 to \$6.00, and the commonar grades sold from that down to \$5, while butchers cow brought from \$4 to \$6 and bulls from \$4.50 to \$5 per 100 pounds. The trade in canning stock was very active at \$3.50 to \$4 per cwt.

A much weaker feeling developed to three months ending \$185 Contents.

Company of its first instalment in connection with the Teck-Hughes deal are found to be incorrect on enquipy at the offices of the latter company. A small payment became due on the first of the month, but the Nipissing Company only met part of this and asked for an extension for the payment of the balance.

The Teck-Hughes officials also deny the report of a big strike on their property, stating that only new ore body was that opened up on the 180 ft, level and merely a continuation of the vein which had been opened on levels higher up. The Nipissing Company are, however, continuing their development of the Teck-Hughes property.

EAST BUFFALO CATTLE.

SARNIA, Dec. 2.—At a meeting here today of Imperial Oil Company shareholders some business of a very important nature to the company was transacted. A year or so ago the Imperial purchased two large oil properties in Peru, and the meeting today was for the purpose of deciding what would be done with them. After some discussion the matter was settled by merging the two concerns into one and giving them the name of the International Petroleum Company. The headquarters of the new concern will be in Toronto.
